

#### INTERNAL MEMO

To: Nigeria Governors' Forum2  
 From: Director General  
 Date: February 26, 2020  
 Subject: **Re: Executive Summary of the Mambila 3050MW Mambila Hydro Electric Power Project (MHEPP) Local Content**

We wish to inform Your Excellencies a meeting between the Secretariat and Hypertech Nigeria Limited, took place on the 25<sup>th</sup> of February 2020, to discuss the Mambila Power Project.

The contract for the project was executed between the Federal Government of Nigeria and China Gezhouba Group Corporation (CGGC) as the lead party of the contractor's JV, with China financing 85% of the project and Nigeria 15%.

In line with Nigeria Government policy on Local Content Hypertech was engaged as the Local Partner to CGGC. Hypertech has been coordinating extensively the local content provision of the Mambila Project. It was agreed by parties to the contract that 70% of procurements will come from China while 30% from Nigeria. The indicative 30% minimum local content participation will sum up to about \$1.71 Billion USD, which would significantly impact the National Economy, providing large employment potentials at all levels of the local content engagements.

The project is Private Sector driven, and it is designed to train and certify workforce in preparation for recruitment by the project. A skills Gap Audit of employment opportunities has been identified. It is necessary to begin training and certification process for the unemployed, particularly the restive youth in the country.

Consequently, Hypertech is desirous of partnering with the NGF to provide amongst other things;

- Human capital development
- Facilitation of technical trainings
- Full collaboration towards the implementation of the project
- Setting up a working group for the implementation of the project.
- Public/Private Partnership arrangement with States' and Federal Government.
- Further and general brainstorming on ensuring Local Content in the implementation of the Project.

Please find attached document for further information on the project.

## Segments for Local Participation

**WORKFORCE CAPACITY BUILDING: Primary Focus of Local Content**  
This is a Private Sector driven initiative on PPP platform designed to train and certify workforce in preparation for recruitment by the Mambilla project.

**RESETTLEMENT (Mass Housing):** Over 100,000 people are estimated to be resettled or compensated. This is an opportunity for local contractors to participate in the construction of the resettlement homes for Host Communities

**Quarry:** About 76 million tons of aggregate required for the Mambilla Project

**Steel:** About 2.7 million tons of steel required for the Mambilla Project

**Cement:** This is an opportunity for a Cement Plants in Adamawa (Guyuk) and Gombe through Partnership with Chinese for the Mambilla Project

**Manufacturing (Truck Assembly):** This is an opportunity for local industry i.e Steyr Bauchi, DPAN/Kaduna assembly plant, Innoson motors and NTM Kano to support over 12,000 trips of Haulage and transportation logistics from Lagos and Calabar Ports and related vehicles to the Mambilla Project sites.

### Employment Opportunities for Local Participation and Public/Private Sector Training Partners

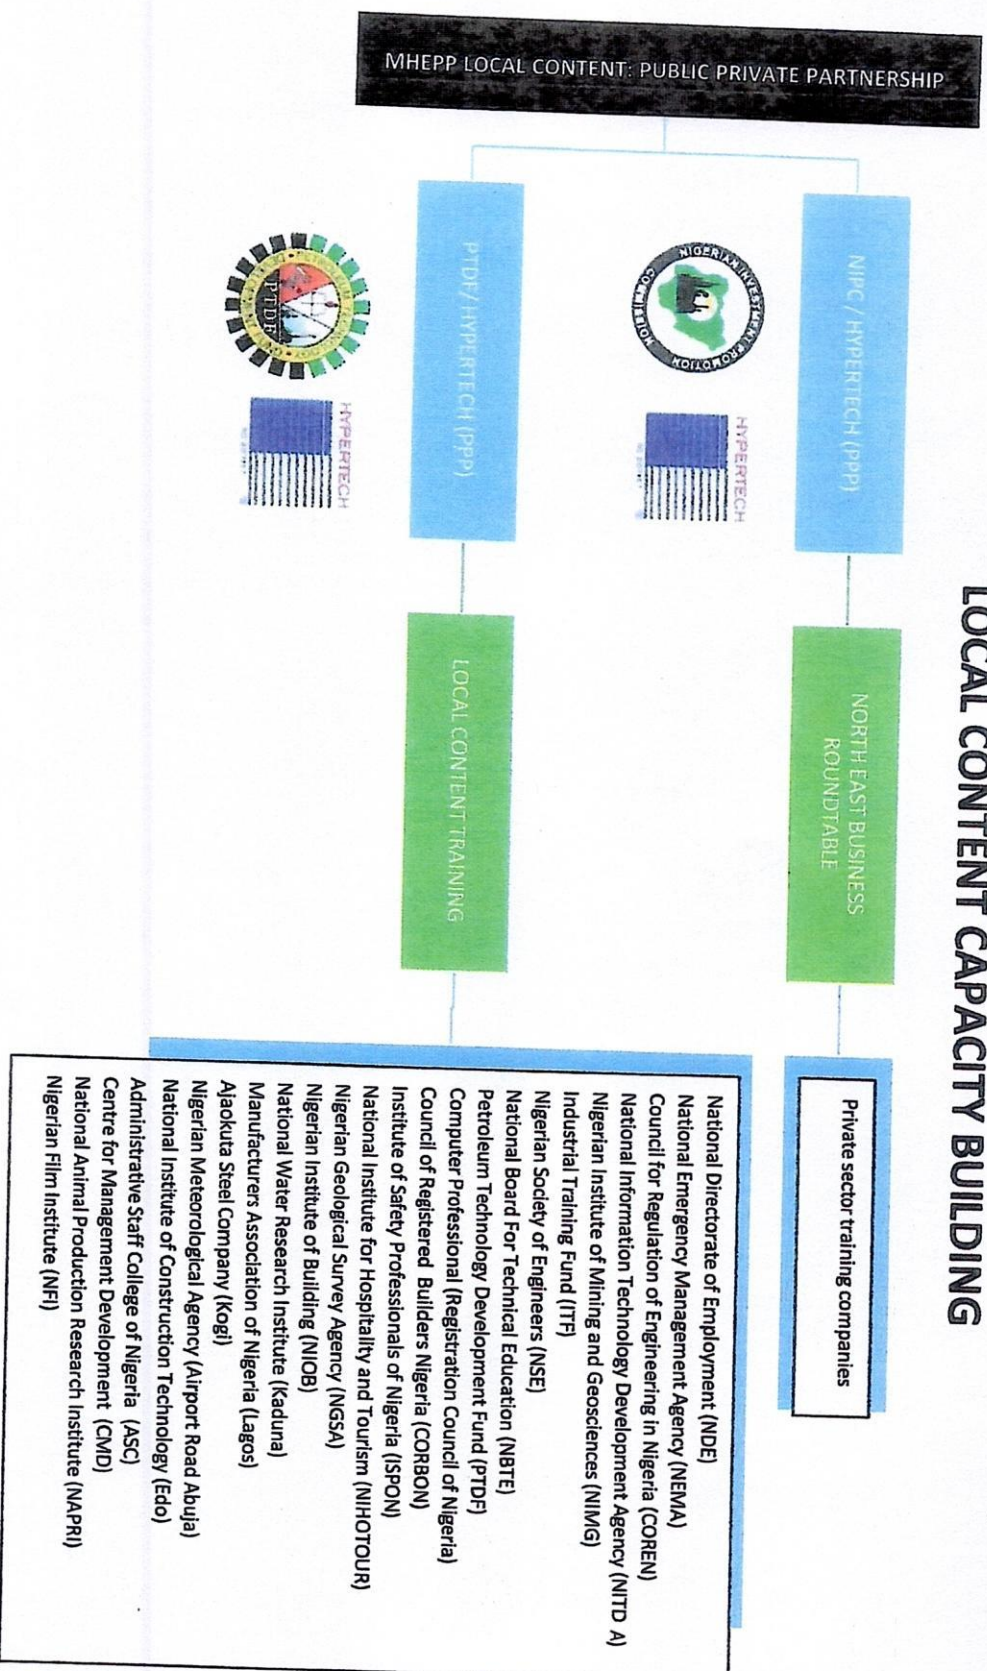

MAMBILLA PROJECT: EMPLOYMENT OPPORTUNITIES	
1. Labourers	
2. Steel fabricators/Welders	
3. Electricians	
4. Masons	
5. Fitters	
6. Mechanics	
7. Supervisors	
8. Labouratory Technicians	
9. Surveyors	
10. Safety Experts	
11. Medical Personnel	
12. Dynamite	
13. Timber	
14. Geologists	
15. Engineers (civil, electrical, mechanical, geological, environmental)	
16. Carpenters	
17. Drivers	
18. Caterers	
19. Security Men	
20. Architects	
21. Quantity Surveyors	
22. Clerk/Site Administrators	
23. Janitors	

**SOME TRAINING PARTNERS: PUBLIC SECTOR GOVERNMENT AGENCIES**

- A **SKILLS GAP AUDIT** is required to determine workforce capacity in preparation for the Mambilla 3050MW Hydro Electric Power Project.
- Based on the **Employment opportunities within the Mambilla Project** it is necessary to begin the training and certification process for the unemployed and underemployed particularly the restive youth of the North East region as well as the Internally Displaced peoples in the Country.
