

Update on Polio Eradication and Improving Routine Immunization in Nigeria

Meeting of the 102nd National Economic Council (NEC)

ED/CEO, NPHCDA

1

Outline

- 1 Progress in Polio Eradication and Routine Immunization
- 2 Update on Integrated Medical Outreach Programme (I-MOP)
- 3 Prayers

2

2

The Federal Ministry of Health through the NPHCDA is working with its development partners to sustain gains in post-polio era and promote equity by targeting the underserved and vulnerable populations

We are implementing an:

Integrated Medical Outreach Programme (I-MOP) which aims to rapidly ramp up immunization, provide basic PHC services and minor surgeries to underserved communities and vulnerable populations

The Specific Objectives of I-MOP are to:

- 01 Ensure zero polio
- 02 Stop paralysis from cVDPV
- 03 Reach underserved populations with vaccines
- 04 Reach underserved populations with medical and surgical interventions

5

A four pronged approach will be deployed to rapidly ramp up immunization, PHC and medical support to vulnerable populations

Integrated Medical Outreach program

Immunization and PHC

Fixed Post ¹ (PHC)	Temp Fixed Post ²	Mobile Post ³	Medical Outreaches
<ul style="list-style-type: none"> Provision of all services previously rendered in the health facility Immunization services (all antigens) Treatment of minor ailments MUAC Screening (hypertension, weight - body mass index) Referral Services 	<ul style="list-style-type: none"> Health Talks Immunization (all antigens) MUAC Referral <ul style="list-style-type: none"> One outreach conducted per ward All antigens are to be provided relative to vaccination history 	<ul style="list-style-type: none"> Health Talks Immunization (all antigens) MUAC Referral <ul style="list-style-type: none"> Access to hard to reach communities, nomadic populations, migrant/displaced people 	<p>One medical outreach will be conducted per senatorial district (109)</p> <ul style="list-style-type: none"> (all antigens) General medical consultations Basic surgeries Treatment of minor ailments Basic Laboratory tests MUAC Screening (hypertension, weight - body mass index) Referral Services

1: **Fixed Post** – services will be provided within a primary health centre
 2: **Temporary Fixed Post** – five (5) man team will provide services from settlement to settlement
 3: **Mobile Post**: Two (2) man team will focus on hard to reach areas, riverine and mountainous regions

6

A total of about 1.4 million unimmunized children will be reached with I-MOP with counterpart funding support from the state Governors (2/2)

SN	States	Counterpart funding required
19	Kaduna	₦ 50,540,039
20	Kano	₦ 50,859,157
21	Katsina	₦ 26,996,950
22	Kebbi	₦ 21,647,450
23	Kogi	₦ 19,589,950
24	Kwara	₦ 18,766,950
25	Lagos	₦ 39,567,068
26	Nasarawa	₦ 15,063,450
27	Niger	₦ 20,824,450
28	Ogun	₦ 17,943,950
29	Ondo	₦ 16,709,450
30	Osun	₦ 17,943,950
31	Oyo	₦ 22,058,950
32	Plateau	₦ 18,355,450
33	Rivers	₦ 17,120,950
34	Sokoto	₦ 59,956,873
35	Taraba	₦ 18,355,450
36	Yobe	₦ 37,596,142
37	Zamfara	₦ 19,178,450

*Counterpart funding will be used for procurement of fixed post and medical outreach commodities
