2. Note:

The Revenue collection by MMSD into the Federation Account for the month of **August 2023** is **₦704,903,354.83**. The Ministry recorded a negative variance in the collection from Royalty for the month by **₦-1,122,449,529.17** when compared with the previous month. The decrease in collection is attributable to the following:

- Decrease in Mining activities across the states.
- The cost of doing business is becoming increasingly high hence the reduction on minerals used and sold.
- Unfavorable weather condition owing to incessant rainfall in the month of August, also affected the operators.

Furthermore, there was also a sharp decrease in the month of **August, 2023** for Fee collection from Mining Cadastral Office (**MCO**) when compared with the previous month by **₦-1,762,515,500.00**, The negative variance is attributable of the following:

- Non-Payment of Signature Bonus for Bitumen project which was a one-off payment.
- Renewal and Registration of Annual service fees has dropped as the year is almost coming to an end. Most operators have long renewed their licences.
