ACKNOWLEDGMENT

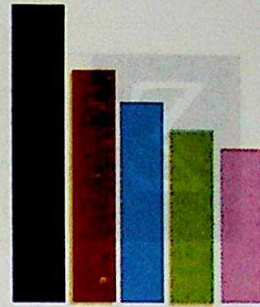

The state Bureau of Statistics wishes to express its gratitude to the State Government for the continuous support provided for the smooth operation of the establishment.

We are also grateful to the Office of the State Head of Service and the Civil Service Commission for making the data available.

We finally wish to express our indebtedness to the World Bank under the “Statistics for Result Facility” programme in collaboration with National Bureau of Statistics for making the production of this document possible.

2006 – 2010 IN ANAMBRA STATE

ANALYSIS OF CIVIL SERVICE MANPOWER BY LOCAL GOVERNMENT, SEX AND CADRES, 2006 – 2010 IN ANAMBRA STATE

INTRODUCTION:

The civil service manpower is the actual staff strength of the workforce in the Anambra State civil service system. It is the aggregation of the human resource available in the payroll of Anambra State. It comprises of the professional, technician, management, administration, clerical and other human resources as well as the sexes. Civil service manpower statistics is the study of the characteristics of this civil service in terms of personnel disposition. Here we want to see the staff strength by the Local Government Area of origin from 2006 to 2010.

Figure 2 depicted another feature of the civil service population. It studied the distribution according to the various cadres of job specialization. Here it is seen again that a particular cadre, others, dominated the scene followed by professional/technicians. The professionals/Technicians actually have 3353 out of the State total of 10548(3667 males and 6881 females) personnel. This shows increase of 122.20% from that of the previous year 2006. Admin/managers have just 684 persons while clerical has 1469 and others 5042. Therefore, others cadre recorded 47.8% of the workforce in 2007 while professionals constitute 31.78% of the workforce.

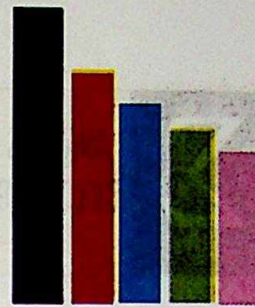

Fig 3

CIVIL SERVICE MANPOWER BY LGA, SEX AND CADRES IN 2008

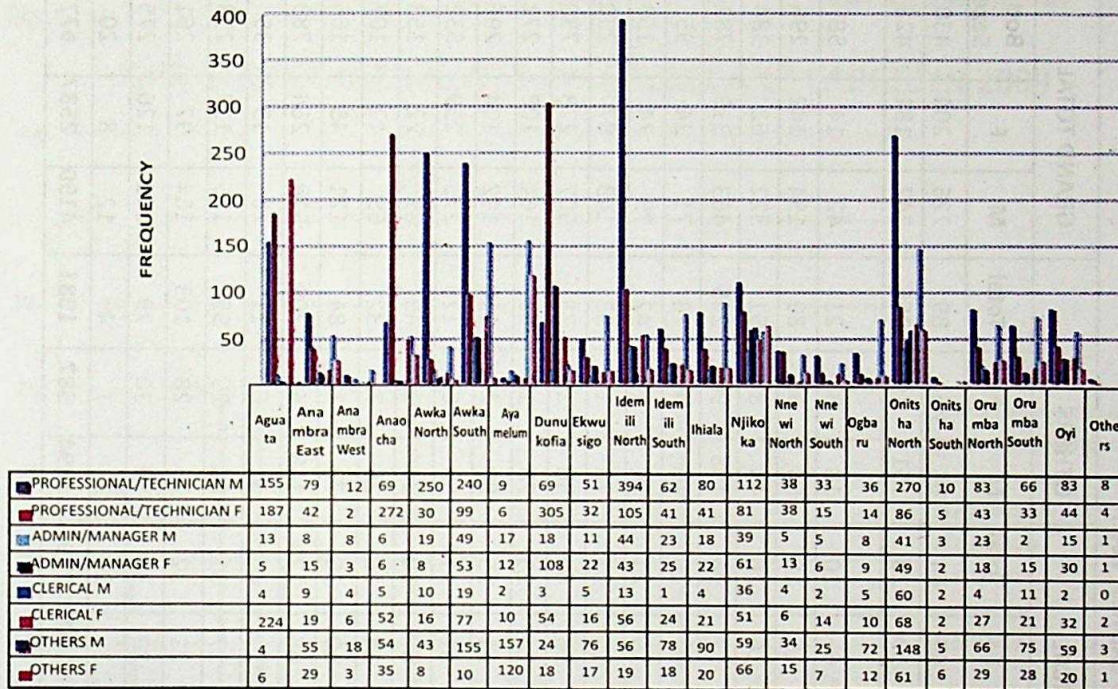

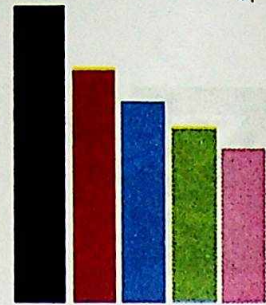

Figure 3 represents Professionals/Technicians, Admin/Managers, Clerical and others respectively for 2008. The scenario showed that the professional/technician cadre, had the highest number of personnel of 3734, followed by others with 1904. Clerical cadre was the next in the ranking with 1040 personnel. At the bottom line was Admin/Managers cadre which had 902 personnel. All the cadres added up to 7,580 personnel. It could also be seen that males dominated the scene in the civil service structure with 4,173 which was 55.05% of the workforce. Females were 3,407 or 44.95%. The greater fraction of that was still found in the Professional/Technician cadre with 2209 males and 1525 females staff. Others came 2nd with 1356 males and 548 females. The margin between two was 853 for males and 977 for females. The margin between that second (others) and the third (clerical) again was 316 for males and 260 for females. That was to say that clerical had more females (808) than others (548). The graph showed that Admin/managers cadre and clerical had more females than males, whereas that of the clerical was more outstanding. The figures were 376 males and 526 females for admin/managers, 232 males and 808 females for clerical. Male to female ratio for the cadres were 1.45, 0.71, 0.29 and 2.47 respectively.

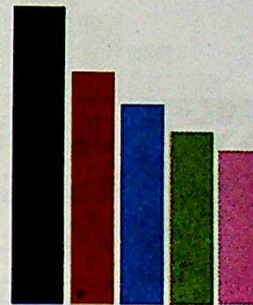

Fig 4

CIVIL SERVICE MANPOWER BY LGA, SEX AND CADRES IN 2009

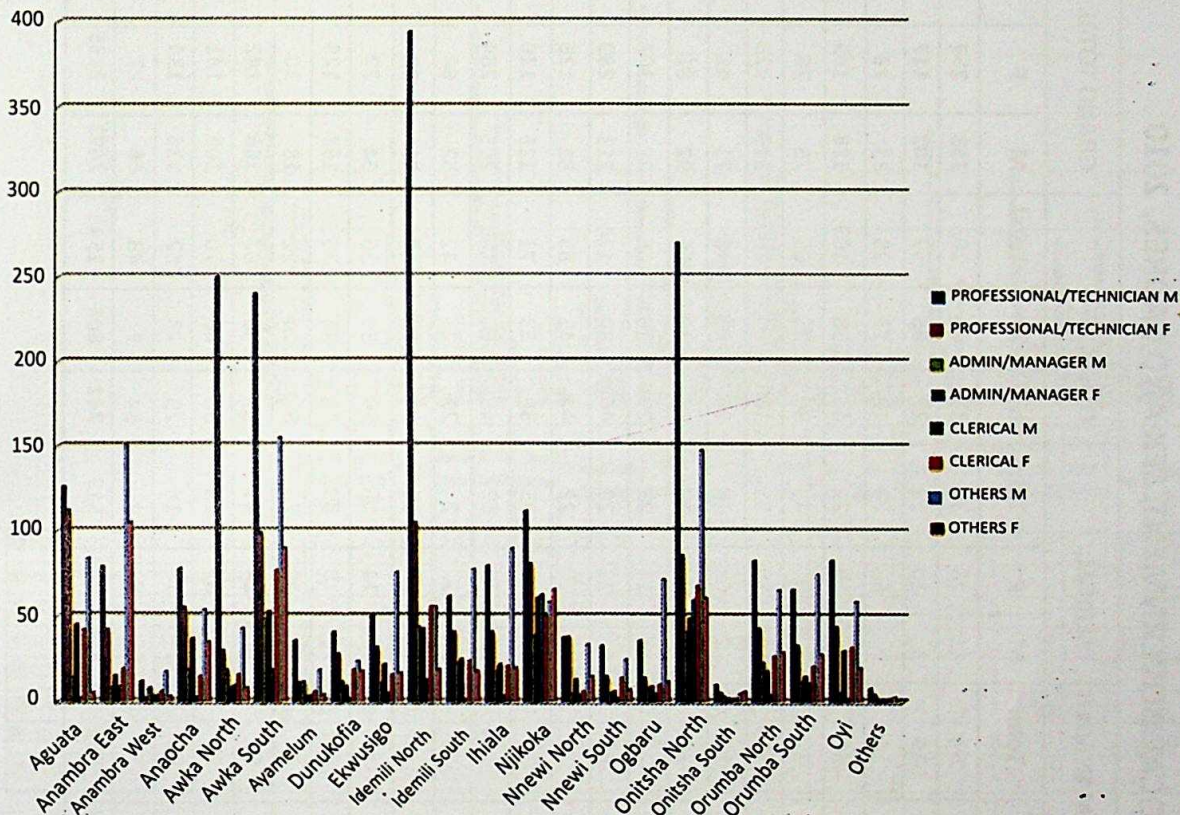

Fig 4 indicates civil service manpower by local government area of origin and sex 2009. It is seen that Idemili North still had highest number of personnel in the service. In the professional/technical cadre, Idemili North was highest followed by Onitsha North. The next was Awka South with 339 and Aguata fourth with 238 personnel. It was seen that only one LGA had 400 & above personnel, one other had 350 & above and two had 250 & above. Still only seven (7) LGAs had 100 & above personnel in the service. In this cadre, males were predominantly more than females all through the LGAs. The rest ten (10) had less than 100 personnel with five (5) crawling between 50 and 0 personnel. The admin/manager cadre had just 868 personnel. That had two LGAs with about 100 personnel, one LGA with 90 and one with 87. Two LGAs had something close to sixty (60) personnel. The rest sixteen (16) had staff less than fifty (50) and close to zero. The clerical cadre, which was the worst of all the cadres, had 779 staff. Apart from Dunukofia and Onitsha North which had 114 and 128 staff respectively, the rest had below 100 staff, and even close to zero. The others cadre had again high number of staff to the tune of 1981 which was the second of the cadres after professional/technician.

Fig 5 reveals civil service manpower by local government, cadre and sex in 2010, which showed that three categories of distribution of staff existed. The first four LGAs made up the first 2040 (38.29%) personnel in the service. The second had seven LGAs and made up the next 1879 (35.27%) staff. The third had ten LGAs with 1190 (22.33%) of the civil service staff. The first four LGAs were Awka South, Idemili North, Njikoka and Aguata. The second were Anaocha, Orumba North, Onitsha North, Oyi, Orumba South, Idemili South and Ihiala. The third group of the LGAs were Ekwusigo, Dunukofia, Awka North, Nnewi North, Ogbaru, Nnewi North, Ayamelum, Nnewi South, Others, Anambra West and Onitsha South. Again on the basis of the cadres, the professional/technician cadre had the highest personnel of 2380 (1206 males, 1174 females), followed by others cadre with the personnel of 1548 (742 males and 806 females). The next in the order was Admin/manager cadre which had figure of 881 (389 males and 492 females). The clerical was the least with staff of 519 (156 males and 363 females). It revealed that males were dominant only in professional/technician cadre while females dominated in the other three cadres of admin/managers, clerical and others.

TABLE 2.0

**ANALYSIS OF CIVIL SERVICE MANPOWER
BY LOCAL GOVERNMENT, SEX AND CADRES,
2006 – 2010 IN ANAMBRA STATE**

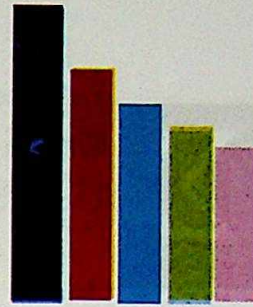

Fig 6

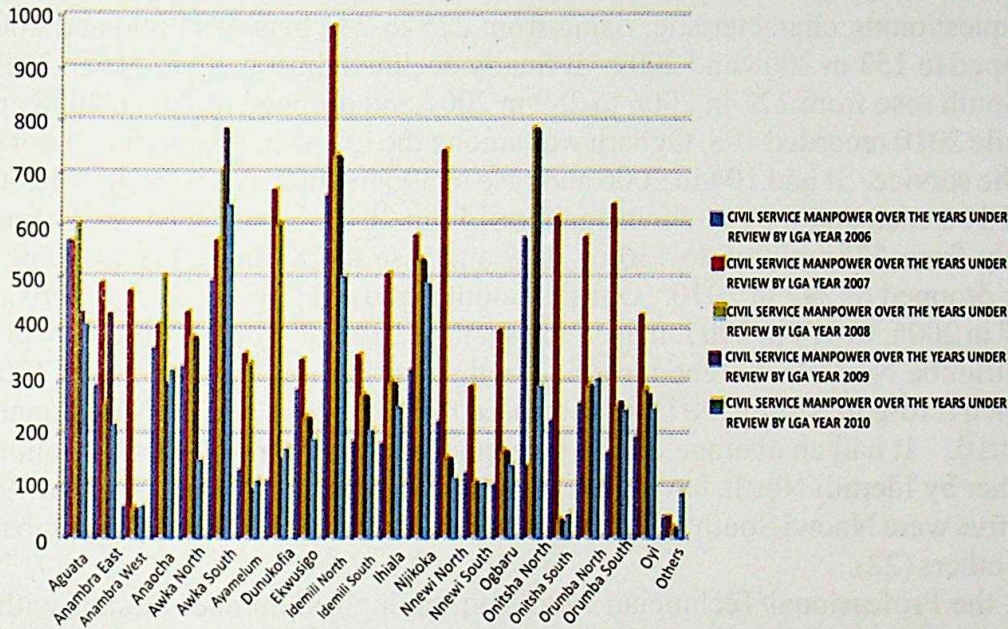

Fig 6 showed yearly distribution of staff by LGAs, Cadres, and Sex in all the years under review. The years were identified by line colours as 2006 (blue), 2007 (red), 2008 (green), 2009 (pink) and 2010 (sky blue). Aguata data grew from 2006 to 2008 and declined in 2010. Anambra East and West recorded discouraging movement all the years. It rose from 293 in 2006 to 486 the next year but fell back to 256 in 2008 and 428 in 2009. It continued the downward movement again trying to equate the 2006 figure. Anambra West recorded between 56 and 471 in all the years under review. Anaocha increased significantly through the years 2006 to 2009 from 365 in 2006, 407 in 2007, 499 in 2008 and 296 in 2009 and decreased in 2010 to 323. Awka North and South fluctuated from 330 and 494 respectively. Ayamelum increased from 132 in 2006 to 300 where it heaped between 2007 and 2008 before it declined again to 95 and 112 in 2009 and 2010 respectively. Dunukofia rose dramatically from 112 in 2006 to 665 in 2007 and then dropped for the rest of the years to 173 in 2010. Ekwusigo had the same structure as Ayamelum. Idemili North concentrated on higher level in all the years. Though it increased from 657 to 977 between 2006 and 2007, it dwindled a bit to 730 between 2008 and 2009 and 502 in 2010. Idemili South on the other hand had same feature as Idemili North, it increased from 187 in 2006 to 349 in 2007. The trend dwindled from 272 in 2008 and 2009 to 207 in 2010. Ihiala fluctuated from 183 in 2006 to 504 in 2007, 296 in 2008 and 2009 to 252 in 2010. Njikoka was among the best performing LGAs. It started with 323 in 2006 and rose to 578 in 2007. It also declined

Σ ANALYSIS OF CIVIL SERVICE MANPOWER
BY LOCAL GOVERNMENT, SEX AND CADRES,
2006 – 2010 IN ANAMBRA STATE

to 532 in 2008 and 2009 before it declined to 489 in 2010. Nnewi North showed another questioning characteristic, rising from 225 to 741 between 2006 and 2007 and dropped to 153 in 2008 and 2009. It finally declined drastically to 116 in 2010. Nnewi South rose from 127 in 2006 to 289 in 2007 and dropped to 107 in 2008 and 2009 while 2010 recorded 108. Ogbaru was among the LGAs with lowest number of staff in the service. It had 104 in 2006 and rose to 396 in 2007. Also, 2008 and 2009 recorded 166 each and moved down again to 141 in 2010. Onitsha North dropped drastically from 577 in 2006 to 136 in 2007 and rose to 783 in 2008 and 2009; it however dropped to 292 in 2010. Onitsha South made a high thread in 2008 rising from 227 in 2006, to 614 in 2007. It declined again to 35 in 2008 and 2009 and to 48 in 2010. Orumba North had a good average in the distribution, having 260 in 2006, from which it rose to 575 in 2007 and decreased to 293 in 2008 and 2009 and finally 308 in 2010. It had an average of 406 personnel and the fourth in the distribution only higher by Idemili North, having the highest 540, Aguata 526, and Njikoka 490. The last five were Nnewi South (103), Awka North (102), Idemili South (75), Ogbaru (64) and others (22).

In 2006, the Professional/Technician cadre had the highest number of staff with a total of 4321(2234 males and 2087 females) whereas, Admin/Managers had the least number of workforce with a total of 377(161 males and 216 females). In 2007, Others cadre had the highest number of staff with a total of 5042(1851 males and 3191 females) whereas, Admin/Managers had the least number of workforce with a total of 684(278 males and 403 females). In 2008, the Professional/Technician cadre had the highest number of staff with a total of 3734(2209 males and 1525 females) whereas, Admin/Managers had the least number of workforce with a total of 902(376 males and 529 females). In 2009, the Professional/Technician cadre had the highest number of staff with a total of 3149(2188 males and 961 females) whereas, Clerical had the least number of workforce with a total of 779(229 males and 550 females). In 2010, the Professional/Technician cadre had the highest number of staff with a total of 2380(1206 males and 1174 females) whereas, Clerical had the least number of workforce with a total of 519(156 males and 363 females).

"It doesn't matter who you are, where you are from, what you do, your ideology, tribe or political affiliation, ordinary people like you can set their minds to their goals and achieve the extraordinary in Kaduna State through our equal opportunity for all"
- Gov. Arc Mohammed Namadi Sambo

Kaduna state is regarded as the political barometer of the country and is been looked at as a pace setter in the northern states. Under Arc Mohammed Namadi Sambo, Kaduna State is getting what it deserves: a Visionary Leadership with Commitment to give every indigene equal opportunity irrespective of one's religious beliefs, ethnicity, political affiliation, social or economic class. Gov Arc. Mohammed Namadi Sambo's policy thrust on various issues continues to be guided by these objectives: Fear of God, Good Governance, integrity and transparency in the conduct of public Affairs. There is also the commitment to Justice, the rule of law and a sustainable development through sound education, basic health care, improved infrastructural facilities and rapid industrial growth; with the base-focus being: Security, Energy, Agriculture, and ICT e-Governance. Today, people of Kaduna State can boast of a Governor who is bringing unprecedented development, profoundly positioning the state to create its economy with proven record of prudence, accountability and transparency.

It is almost two years now since we took the mantle of leadership of this great and historic state of ours through your mandate. Within this period, we have strived hard to ensure that we leave an indelible mark in the annals of the history of the state so that we shall justify the mandate trust and confidence reposed on us by the good people of Kaduna State.

Our journey started with an already existing budget prepared and executed by our predecessor being a continuing administration, our slogan was encapsulated in our campaigns (for continuity and development) therefore, we did not hesitate to continue with the works bequeathed to us. This was principally to conclude such works and save the State the trauma of abandoned projects and prepare grounds for the take-off of new projects under our already established Eleven Point Agenda. In the year ended 2007, we had strived to conclude and prepared our 2008 People's Budget for implementation, which was passed in the middle of March 2008 following which we set up all the machinery in motion for the actualization of our overall objective and lofty dreams for our dear State.

GENERAL PERFORMANCE DATA AND COMPLETED PROJECTS in 2008

In addition to the performance and achievements captured in the widely circulated 2008 Performance Data & Completed Projects Commissioning Schedule document, it is worthy to note that other good number of projects inherited and those initiated by this administration were completed in the year under review. These items include but not limited to the following projects:-

ZONE I

	PROJECT	L.G.A.
1	Sadauki Abashe Road, Likoro Hunkuyi CAP -Jafafaru, S/Gari, Zaria	S/Gari/Zaria
2	Janfalan-Kargi Saya-Saya-Kano	Ikara
3	Sayi Rafin Yashi	Zaria
4	New Business Apprenticeship	Hunkuyi-Kudan
5	Construction of Blocks of 2 Classrooms At Ikara	Ikara
6	Construction of new Government Secondary School, Makarfi	Makarfi
7	Remodeling/Upgrading of Health Clinic At Paki	Ikara
8	Chikaji Industrial Area Road	S/Gari
9	Remodeling/Upgrading of Health Clinic At Gubuchi	Makarfi
10	Construction of Secondary School, Zaria	Zaria
11	Joint electricity project at Kayaba, Takalafiya and U/Mamida	Soba
12	Ramin Kura-Kahugu-Gure Road	Lere
13	Sauwala – Pampaida Road	Ikara
14	Kaduna/Kano Express Road	Kudan
15	Ramin Kambari-Ramin Doko Road	Zaria
16	Durumi	Zaria
17	Joint Electrification Project at Tashan Kanawa and Gumbi	Kudan
18	Remodeling/Upgrading of Health Clinic at Kudan	Kudan
19	Joint Electrification project at Dan Alhaji II	Lere
20	Joint Electrification Project at Bundun Kahugu	Lere
21	Remodeling/Upgrading of Health Clinic	Lere
22	Joint electrification project at kyaude 'A' and 'B'	Kudan
23	Joint electrification project at U/Marimari, Tafida, U/Kwadi	Makarfi
24	Government Secondary School Garu	Soba
25	Joint electrification projects at Rafin Yashi and Kafin Mardani	Zaria
26	Joint Electrification Projects at Konterisha and Katanga	S/Gari
27	Joint Electrification Projects at Mah, Kareh and Kargi	Makarfi
28	Joint Electrification Projects at Dorayi and Bahau	Kudan

ZONE II

	PROJECT	L.G.A
1	Kaduna New City Layout	Chikun
2	Supply And Installation of 2 Nos Lift Machine/Medical Equipment At Barau Dikko Specialist Hospital	K/North
3	Joint Project (Electrification) at Kangimi	Igabi
4	Government Secondary School Babban Saura	Chikun
5	Amana-Turunku-Road Construction	Igabi/Zaria
6	New Government Secondary School Kakangi	Giwa
7	Makera Industrial Area Roads Network U/Boro, Zubairu Sambo Road Projects	Barnawa, & K/North/South
8	Re-modelling/Upgrading of Health Clinic At Randagi	B/Gwari
9	Construction of Government Secondary School Kakangi	Giwa
10	Kwanan Farakwai-Turunku Road	Igabi
11	Abba Habbi/Makarfi Road	K/North
12	Government School School Rigasa	Igabi
13	Marafa Estate/Dantunku Roads	K/North
14	Legislators Quarters Services Roads	K/North
15	Giwa-Turawa-Kakangi Roads	Giwa
16	Danja/Jagaba/Shere Close/Gandog/Nisama Roads	K/North/K/South
17	Latai Tombai Road, Malali Kaduna	K/North
18	Shettima Close/Sani Sambo Avenue/Hassan Hyet Crescent, Kaduna	K/North/K/South
19	Shehu Idris-Hong Avenue, Kaduna	Kaduna South
20	Zangon Shanu-Bye-Pass, Abuja	K/North/Igabi
21	Layin Kosai, Bashama and Madobi Roads, T/Wada, Kaduna	K/South
22	Joint Electrification Project at Tabani And Kuyello	B/Gwari
21	Joint Electrification Project at Sako	Giwa
22	Joint Electrification Project at Dogon Dawa	B/Gwari
23	Joint Electrification Project at Kuyawa and Guga	Giwa
24	Jos, Wushishi and Rock roads, Kaduna	K/North/K/South
25	Joint Electrification Project at Foundation	Igabi
26	S.M.C. Quarters-K/Kibo-Durumi Road	K/North
27	Joint Electrification Projects at Budda and Kajuru Staton	Kajuru
28	Joint Electrification Projects at Dinki and Gwada	Igabi

ZONE III

	PROJECT	L.G.A.
1	Keyya-Gegira Road Project	Jema'a
2	J/Kogo-Gidan Jibrin-Daddu Road Project	Jaba
3	Joint Electrification Project At U/Ibrahim And Agamati	Sanga
4	Remodeling and Upgrading of Health Clinic at Abet	Z/Kataf
5	Soba, Jagindi, Magajiya, Bauchi, Rehabilitation Centere, Kano, Iloring And Palace roads Projects, Kafanchan	Jema'a
6	Joint Electrification Projects at Bidde And Kwarebbe	Jema'a
7	Supply and Installation of General Hospital Kafanchan	Jema'a
	Adduan Gidal/Catholic Dioceses road	Jema'a
	Government Secondary School Antong	Kachia
	Joint Electrification at Zaman Dabo	Z/Kataf
	Joint Electrification Project at K/Masara	Z/Kataf
12	Remodelling/Upgrading of Health Clinic at Kachia	Kachia
13	Gwantu-Wasa Road	Sanga
14	Remodelling/Upgrading of Health Clinic at Kagarko	Kagarko
15	Remodelling of Health Clinic at Geshere	Kauru

It is important to note that arrangements have been concluded to commence commissioning of these projects numbering over 500 immediately following the successful hosting of the National Sports Festival: KadaGames 2009 tagged the "Best Ever".. Each Honourable Member of the State House of Assembly shall commission the projects in his constituency based on the positive effort made by him/her in ensuring that the constituencies benefited from the various government programmes.

BUDGET 2009

The 2008 Budget was tagged "THE PEOPLE'S BUDGET" because it was in that year's budget that the people oriented programmes were embarked upon and satisfactorily executed. The 2009 Budget is different in content and style of execution. Succinctly put, it is a "Performance-Based Budget", a system that seeks to address the key sectors the budget is tailored to achieve. Therefore, in putting together the 2009 Budget, a lot of factors were taken into consideration with regards to resources accruing to the State. It includes funds from the Federation Accounts referred to as Statutory Allocations, Internally Generated Revenue (IGR) and funds from other sources that include but not limited to grants, local and international soft and long term development funds and counterpart funded programmes.

Gov. Namadi Sambo with World Bank Country Director for Nigeria, African Region Mr. Onno Ruhl

The situation of Statutory Revenue will not be the same as last year because of the gloomy financial forecasts resulting from the global financial meltdown and the fall in the price of crude oil in the International Market. Armed with this uncomfortable situation, we are of the view that the revenue accruing to the States from this source will certainly be affected. To create its own economy that is self-

sustaining and that will outlive the administration, Government is making concerted efforts to boost its Internally Generated Revenue potentials. This, it pursued by exploring all internally generated revenue avenues and by modernizing the tax generation agencies in the State. This initiative is supported by the World Bank and DFID Assisted Governance & Capacity Building Schemes. When properly implemented, it will double the efforts of the State in the revenue generation drive and minimize revenue losses. Government is determined and desirous to attain this optimal performance, as such all the necessary support will be accorded to these agencies. Government is now participating directly in the Board of Internal Revenue in order to avail them all the support that is necessary for the achievement of their objectives.

Accordingly, to meet the yearnings and aspirations of the people of the State, this year's budget estimate is tagged "BUDGET OF CONSOLIDATION & STABILIZATION". In spite of the expected fluctuations of the price of crude oil in the international market, we are committed to ensuring that our philosophy of socio-economic reforms are attained. Within the available resources at our disposal, we shall ensure the empowerment of our people while safely executing our programmes and projects.

Gov. Namadi Sambo with Mr. Ivan Lewis, Minister for UK Department For International Development (DFID)

HIGHLIGHT OF 2009 BUDGET

The total Budget size accented by the Government for 2009 is N153,670,483,705 as estimated from the total expected receipts of same amount. In the 2009 Budget, attention is basically going to be focused on Education, Power, Transport, Security, Health, Water Supply and Agriculture.

In the Agricultural Sector, we are making efforts to reduce poverty and generate employment opportunities for our people. We have therefore set the pace in the provision of various dams and irrigation projects in various locations within the State.

Furthermore, the State is implementing the following programmes:

- 1..World Bank Assisted \$30million USD Commercial Agricultural Development Project (out of which the State will provide \$6million USD as Counterpart Funding);
2. World Bank Assisted Fadama III Project \$1.156 USD while the State is expected to contribute \$265,720 USD as Counterpart Funding.
- 3.. African Development Bank (ADB) Community-Based Agricultural and Rural Development Project N468,450,000 including Counterpart Funding of N20million.
- 4.. World Bank/ADB Assisted Root and Tuber Expansion Programme N400million.

These are intended to also provide employment to our teeming unemployed youths in the rural as well as urban areas of the State.

Similarly, we have made a provision of 1% of the Capital Budget in this year's Budget to support and add as complimentary to our efforts in financing our State Micro-Finance Banks, the aim of which is to ensure that financial services are made available to the vast majority of the low income earners and the poor to engage in productive activities and to create jobs amongst others.

We intend to continue with the articulated programme on free medical treatment for Pregnant Women and Children under five (5) throughout the State. Government intends to increase the number of Hospitals to be covered under this programme from 115 PHCs to 220 PHCs. In 2009, in addition, we have gone a step further to build a state-of-the-art specialist and teaching hospital in Kaduna Millennium City with a capacity of 200 beds and diagnostic and medical facilities to arrest related diseases. This will be done in a Public-Private Partnership (PPP) arrangement.

Under the Transport Sector, all the on-going projects will be duly completed. New awards would also be made to take care of some critical areas. In view of this, the State Government has allocated the sum of N4.4 billion to ensure success in this direction.

The Education Sector in the State has maintained the tempo on the general provision of infrastructure that includes but not limited to repairs, renovation, rehabilitation and equipping of schools in the State. Coupled with this, more teachers have been recruited to provide adequate qualitative and quantitative teaching in primary, secondary and tertiary institutions. Other priority programmes implemented includes free and compulsory Primary Education through the issuance of free uniforms, textbooks and other accessories. The State is committed to commence implementing the 27% new salary scale for teachers in this year's budget.

As a reprieve to our parents and to cushion the effects of the harsh economic downturn occasioned by the relatively low sources of income, the Government has supplemented last year's feeding with N112 million to boarding secondary schools in the State. It also intends to start giving free feeding to primary school pupils on a pilot scheme and also construct staff quarters for primary school teachers in the State.

These development efforts embarked upon by Kaduna State Government have attracted the attention of our development partners within and outside the State. Private sector establishments have indicated interest in partnering with the State to promoting non-oil sector ventures based on the high potentials that abound in the State. The international community has also expressed enthusiasm to enter into partnership arrangements with the State to further support our social sector reforms, poverty alleviation programmes and other sectoral development efforts. Pursuant to this, the State has already embarked on new projects with the development partners in the following broad areas:-

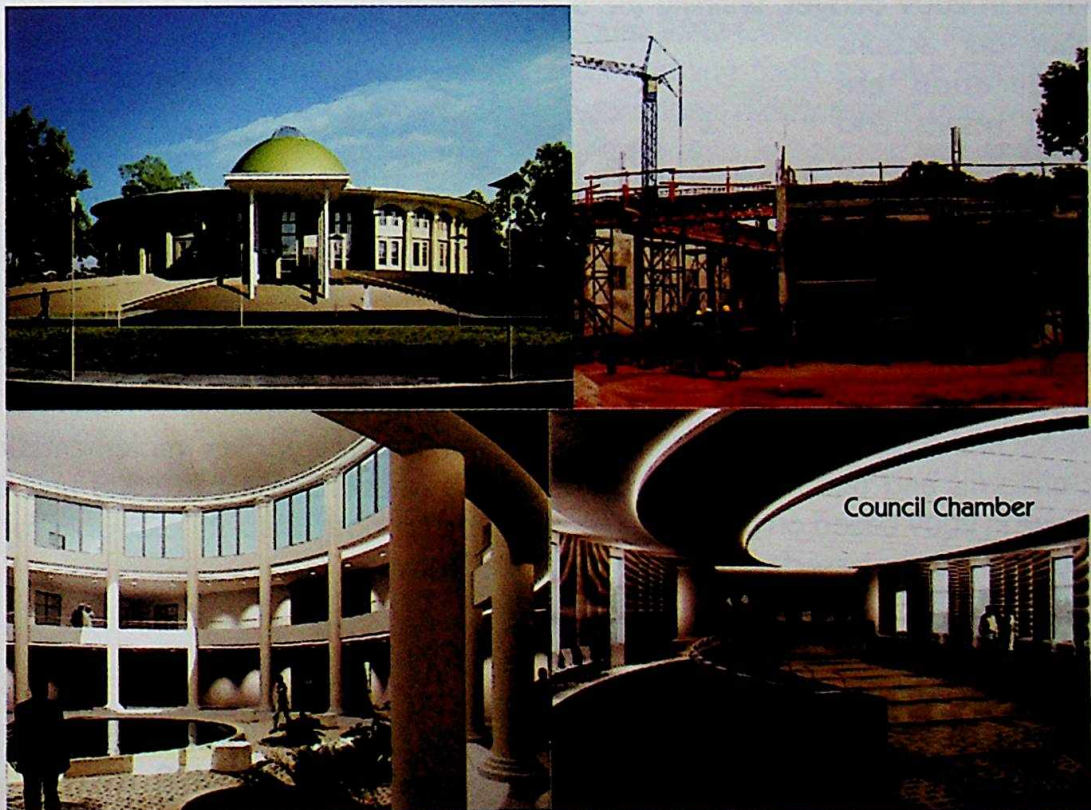

1. Governance and Capacity Building Project- a World-Bank and DFID sponsored initiative which has finally taken off in the State;
- 2.. Kaduna State - Japan initiative for production and export of ginger, cassava, acha and beniseed; and the Kagoro Hills Holiday Resort.
- 3.. Kaduna State - India Initiative for Cottage Industry Development and Skills Acquisition;
- 4.. Kaduna State - China Initiative for the production, processing and export of ginger, sugarcane, cassava etc;
- 5.. The State and Local Government Project (SLGP) has already been mobilized in the State and had commenced its training programmes;
- 6.. The Partnership between Kaduna State and the World Bank, DFID and USAID will take off to address Power, Water and related issues, Education as well as Agricultural programmes.
- 7.. The partnership for the Transformation of Health Systems (PATHS) between DFID and the State has commenced effective work in the health sector.

These projects along with other on-going initiatives are aimed at transforming the State. We plan to eradicate poverty and enhance the general well-being of our people. In addition, we are working closely with the Millennium Development Goals (MDGs) office and indeed have embarked on collaborative projects on solar power supply to 12 villages, namely Kurumtumawa in Makarfi, Katsalle in Ikara, Fantan in Zaria, Riwa in Lere, Kono in Kauru, Ngade in Birnin-Gwari, Angwan Arha in Kajuru, Ungwan Maje in Chikun, Ngarde in Kachia, Kusom in Jema'a, Dogon Daji in Sanga, Ashafa in Igabi; 50^{Nos} VIP Toilets, over 500^{Nos} boreholes, rehabilitation of clinics and Primary Health Care Centres, Maternal mortality programmes, War Against Malaria, that are at various levels of execution. We intend to ensure that we derive full benefits from the Debt Relief Fund.

FOUNDATION LAYING CEREMONY OF PROJECTS TO BE EXECUTED IN YEAR 2009

1. NEW GOVERNMENT HOUSE

Kaduna State is located at the center of Northern Nigeria. It has a political significance as the former administrative headquarters of the North during the colonial era. The

New Face Look of the Government House

famous Sir Kashim Ibrahim House has been the seat of Government since the pre-independence era being used as the administrative center and residence of the Governors of the Northern Region. This shows that its historical importance cannot be over emphasized.

The need for the continued expansion of the administrative requirements for service delivery to the good citizens of the state makes the expansion of the Governor's office very necessary. To this end, therefore, the contract for the expansion works has been awarded to Messrs Julius Berger Nigeria Plc at the cost of N2.9 Billion with a 2 year construction period; and they have since commenced work which is progressing steadily.

The New Expansion Government House when completed will provide the enabling environment for a better performance and service delivery to the people of Kaduna State. The Secretary to the Federal Government of Nigeria Alhaji Yayale Ahmed (FR) has performed the official foundation stone laying ceremony of the project on March 17, 2009.

2. EDUCATION

Kaduna State's free and compulsory Primary Education and the issuance of free uniforms, textbooks and other accessories will continue in 2009. The State is also committed to commence implementing the 27% TSS (new Teacher Salary Scale) for teachers in 2009 budget. Winning the 5th position in the 2008 NECO exams further testifies our actions on education are yielding results and we shall continue to support the sector.

State Universal Basic Education Board (SUBEB)

Under the State

Universal Basic Education Board (SUBEB) education roadmap/policy implementation, free uniforms and textbooks were distributed in phases starting in 2008 and will continue in 2009 based on the overall requirement for both Uniform/Textbooks for all schools in the State based on the following 2008 Statistics:

(i) Schools' Population	948,477
(ii) No. of Schools	3,715
(iii) No. that benefitted/will benefit	186,018
(iv) No. yet to benefit	762,459

Details of Achievement on Free Uniform and Textbooks Programme

2008 PHASE 1 (N30,885,000.00)

1. No. of Schools that benefitted:	23
------------------------------------	----

Free Text Books being distributed

Free Uniform being distributed

2. No. of Pupils that benefitted	5,520
3..Set of Uniforms Supplied	11,040
4..No. of Textbooks supplied on the 4 core subjects	22,080

2008 PHASE 2 (N281,641,000.00)

1..No. of Schools that benefitted:	70
2..No. of Pupils that benefitted	58,921
3..Set of Uniforms Supplied	117,842
4..No. of Textbooks supplied on the 4 core subjects	235,684

2009 PHASE 3 (N477,664,376.16)

1..No. of Schools to benefit	167
2..No. of Pupils to benefit	121,577
3..Set of Uniforms to be Supplied	243,154
4..No. of Textbooks to be supplied on the 4 core subjects	486,308

To enhance overall educational standards, Kaduna State Government is investing huge resources in infrastructure and acquisition of learning tools to raise standards of education to international level. A strategic educational development plan will ensure excellence in both the tutoring and learning of skills in science and technology including information and communication technology (ICT) by students who will be seen as the future innovators and industrialists of our country.

To ensure that higher education is catapulted to an enviable height in the State, contracts for the development, rehabilitation and construction of additional classrooms, laboratories, ICT Centers equipping of libraries, etc were awarded. The benefiting institutions are the State University, College of Education Gidan-Waya, Nuhu Bamalli Polytechnic Zaria, College of Nursing Kafanchan and Shehu Idris College of Technology, Makarfi, to name a few.

3. ENERGY

We created an Agency for Power Generation because of high priority we put on energy generation. Today, no nation aspiring to have a sound industrialized economy can do that without having a reliable power base to propel its economic activities because there is a strong correlation between power generation and the size of the country's Gross Domestic Product (GDP). It is not difficult to observe that all the leading power producers are the largest economies in the world today.

The created Agency is the "Special Vehicle" established to be responsible for developing the necessary avenues for improving power generation capacity in the State. This concept was brought to the Northern Governors' Forum and it was unanimously adopted and therefore agreed that all the participating 19 Northern States were to adopt a collective approach towards arresting the persistent power problem in the Northern States as our contribution towards the achievement of our national developmental objectives.

In addressing these challenges and consolidating development and job creation, we looked at how we can generate Power while boosting Agriculture at the same time. The Gurara Dam sited by the Federal Government in Kachia and Kagarko Local Governments of Kaduna State is a wonderful opportunity and a source of so many glad tidings to the people of Kaduna State. The issue of power supply has reached an advanced stage in the construction and installation of the necessary turbines that will generate needed power to be evacuated to our Kudendan Industrial Area for utilization by our hitherto comatose industries located in the area.

A Milestone Achievement in Power Generation:

Kaduna State Government has already signed a PPP Agreement with SKYE BANK/ENTEC Power Consortium on the development of 100 MW Power Plant for Industrial Areas.

Gurara Dam

Gov. Namadi Sambo Signs Power MOU

Inside Gurara Dam

Penstock Installation

Gov. Namadi Sambo,

The State's energy supply plays a major part in contributing to its enduring economic success. Thus, the issue of domestic Water Supply and Hydropower became a higher priority – to ensure that there is adequate supply of electricity to meet growing consumer and industrial demand and help ensure continued economic success into the future.

One of the major constraints in the past to water resources and hydro development is the lack of basic planning data. First, a study of hydrological data of the major river catchments area was conducted and suitable locations for the development of Major Multi – Purpose Dams within Kaduna State including Geological formations were identified. Based on the hydrology report, 11 locations were identified for power generation all across the state. These locations will also serve for irrigation purposes.

Kaduna State Energy Action Plan in Summary

1. Development of Major Dams with Hydroelectric Power Generation Potentials in Kaduna State
- 2.. The Gurara Dam Hydro Scheme
- 3.. The Emergency Power Fuel Plant - The Emergency Power Fuel-oil Plant to generate 100 Megawatt

As a result, a project site has been allocated and the design completed including the design of the 132/33kV Sub-station that will evacuate the power to the industrial area

4. WATER RESOURCES

Addressing the issue of water: Kaduna and Zaria Regional Water Expansion Schemes

KADUNA

2. A new Dam of 129 mcm for a Design Horizon of 2035
3. A new Water Treatment Plant of 170,000 m³/d for a Design Horizon of 2025
4. New Transmission Mains and reservoirs
5. Pipe Network Extensions and strengthening of 433km in the existing town
6. Pipe Network Extension in the New Eastern Sector
7. Replacement of existing Asbestos Cement Pipes of 361 km

His Excellency, Gov. Arc. Namadi Sambo, inspecting Water Treatment Plant

ZARIA WATER SUPPLY EXPANSION PROJECT

1. Engineering Design Review and Construction Supervision
2. Dredging of the existing Shika Dam
3. Construction of 150,000m³/d Water Treatment Plant
4. Construction of Transmission Mains
5. Construction of 8 Service Reservoirs
6. Laying of 200km of Network Expansion in Zaria Metropolis
7. Replacement of 431km of existing Asbestos Cement Distribution Network

5. COMMERCIAL AGRICULTURE

Gov. Arc. Namadi Sambo Pioneering Commercial Agriculture

Agriculture plays a major role in Nigeria's economy. The idea to introduce Commercial Agriculture Development Project in Nigeria was overwhelmingly accepted by both public and private sectors. This is because of the new approach that focuses on farmers, traders and processors as key agents of commercialization.

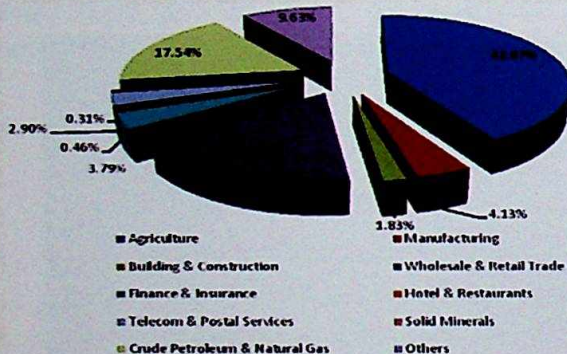

One unique feature not known in the history of preparation of agricultural development project in Nigeria was the participatory approach adopted for the Commercial

Agriculture Development Project. All stakeholders from the public and private sectors have been actively involved in the stages of project preparation.

This is a project that will propel the state to the highest level in Agriculture Development, especially the targeted commodities value chains; will provide employment to the unemployed; will create the needed wealth; will bring in foreign exchange; and will help our commercial farmers grow to their highest potentials and raise their standards.

Kaduna State is going towards Commercial Agriculture

Agricultural output continued to be the dominant sector with the highest contribution to GDP at 42.07%. Kaduna is going towards Commercial Agriculture for all year farming to boost Agriculture. 80% of Kaduna State engage in Farming.

Source: Nigeria in Focus

Agriculture and Water Resources for commercial agricultural development programme for sustainable approach to food security based on the value chain approach. Kaduna State is included in the tractorization programme where we are expected to pay 15% subsidy rate for 108 tractors to lease to our cooperative societies and individual large-scale farmers.

The award by the federal ministry of agriculture for the construction of seed centre in Giwa Local Government Area where the Local Council is expected to provide one hectare of land for its construction will encourage 1500 out-growers with different seedlings.

The Kaduna State Ministry of Lands & Surveys have provided a 2000 sq meter of land for the construction of the integrated services Center in Igabi Local Government while concerted efforts are being geared towards ensuring that land for the construction of the modern markets for livestock, fishery, fruits and vegetable product is provided.

Commercial Agricultural Development and R&D

It is worth noting that the Value Chain approach target for the 2009 agricultural season which the State intends to benefit from as a Pilot State under the Commercial Agricultural Development Fund (CADF) are in the area of production, storage, processing, research and development, marketing and land clearing, land mapping, soil survey, silos rice mills and cassava processing plant. Others include the rehabilitation of abattoirs across the

State, the irrigation schemes, water dams, dams for hydro production, maize/rice threshers and rice harvesters, fishery and fertilizer blending plants.

We are ready to provide 10,000HA of land for irrigation in the Gurara site to enhance and support upliftment of our citizens in the Southern Zone of the State under the Commercial Agricultural Development Scheme as well as providing additional 5,000HA each in Zones II and I of the State making a total of 20,000HA with a budgetary provision of our counterpart funding of N2billion in the 2009 Appropriation.

Towards achieving this objectives, we shall clear 10,000HA of land hence the need for the procurement of land clearing equipments. We shall explore areas like Sabon Birni, a suburb in Giwa Local Government Area which has virgin land for high commercial agricultural production. With the soil laboratory at Gonin-Gora, soil analysis will be quick so that we shall consolidate on our land mapping and soil analysis.

Poultry and Fisheries

Rice mills and cassava processing plants and silos are of great importance in the commercial agricultural chain. They have the advantage of minimizing post-harvest losses and ensuring that preservation meet international standard. Silos are key factors to storage after agricultural crops are produced and we are working hard to ensure that storage facilities are provided. We have so far constructed brand new silos in Birnin Gwari, Kafanchan and Saminaka in that direction.

The Saminaka, Kaduna-North - Kawo, Zangon Shanu and Kafanchan abattoirs are in a terrible condition and need urgent rehabilitation so as to provide hygienic environment and healthy meat for our demanding population.

Kaduna State is going towards Commercial Agriculture

On the issue of the fertilizer blending plants, which we are determined to address, will go a long way to ensuring supply of fertilizer to our farmers especially by the year 2010 when the Federal Government will eventually pull out from fertilizer procurement.

The rice/maize threshers and rice harvesters will go a long way in addressing hard labour amongst our small and weak medium-scale farmers and also reduce post-harvest losses while increasing capacity of production.

With our involvement in this agriculture scheme coupled with our desire to encourage our farmers to excel, we shall take the implementation option as suggested in the execution of these and other related agricultural development projects for production, food security and sustainability. These will include but not limited to creation and expansion of irrigation schemes, the support to farmers towards commercial agriculture and creation of the business environment for food processing industries.

6. SCIENCE AND TECHNOLOGY

The main source of value and competitive advantage in the new knowledge driven economy is human and intellectual capital, where knowledge, innovation and creativity are the main ingredients. For States that want to tap into the new ideas they must embrace the advances in sciences and information and communication technology (ICT), and embrace e-Governance as a tool for

FRONT ELEVATION
Designed of ICT Centre to be Constructed in each Local Government

citizen's empowerment. In technological development, computer education is now compulsory for primary school teachers nation-wide, who will then impart the skill to their pupils.

Kaduna State Government is fully committed to research and development in sciences.

We have produced step-by-step Questions and Answers Textbooks in English Language, Mathematics, Chemistry, Biology and Physics for sale to students at subsidized rate.

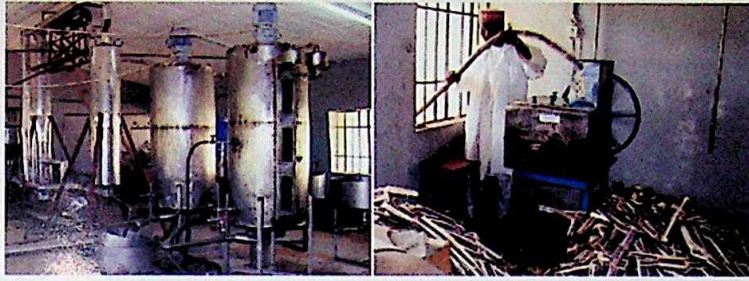

We have reached an advanced stage in the establishment of four (4) new Science Secondary Schools at Manchok, Koreye, Rigachikun and Kaduna Millennium City to be financed by the Islamic Development Bank (ISDB). Winning the 5th position in the 2008 NECO exams further testifies our actions on education are yielding results and we shall continue to support the sector.

Research and Development (R&D)

In Research and Development (R&D), Kaduna State Government has already set the ball rolling by sponsoring the establishment of a Pilot Plant for the production of Bioethanol from sugar - cane in Kaduna. The State Ministry of Science and Technology in collaboration with the Science and Technology Forum Zaria successfully test run the plant in January 2007. At this stage, 80% ethanol was produced from sugar - cane; however, in May 2007, fuel grade (99.9 0/0) ethanol was produced. The product has been blended with

Design of inside ICT Center to be Constructed in Kaduna

Bio ethanol production

different percentages of petrol such as E 10 (10% ethanol and 90% petrol), E 20 (20% ethanol and 80% petrol), E 50 (50% ethanol, and 50% petrol) and E 100 (100% ethanol) and test ran in an internal combustion engine (electrical generator) with good results.

Ministry of Science and Technology will be supported to kick-start research into the production of Zeolite for the bio-fuels industry as this is required even by the petroleum refineries in the Country. Though the present plant uses sugar-cane as the raw material for the production of ethanol, cassava, maize and other grains can, with slight modification in the process, be used. The Ministry intends to introduce the modification in order to use cassava or maize as feedstock in the next stage of ethanol production. Moreover ethanol and sugar production can be embarked upon simultaneously as this makes economic sense.

Kaduna State government sponsored 15 indigent students to the aviation college

On the partnership of the Kaduna State government with the Nigeria College of Aviation Technology, NCAT, Zaria, Kaduna State Government had sponsored 15 indigent students to the aviation college at a cost of N27 million, as a mark of its commitment to the development of the country's aviation industry.

Kaduna Plans Fast Rail Service

Kaduna State will introduce a fast rail service that would run from Kaduna to Abuja. This is as a result of successful re-introduction of rail transport within the state, which runs daily shuttles through four local government areas of the state.

Gov.Arc. Namadi Sambo said the rail service would take only an hour and a half for those travelling from Kaduna to Abuja, and would impact positively on acute shortage of housing faced by workers in Abuja, as the rail service would make it possible for people to go to Abuja in the morning and come back to sleep in Kaduna.

Propose speed rail from Kaduna to Abuja

Government has also concluded plans to expand the intra-city rail transport which hitherto runs through four local governments, to cover 14, with two-minute stop at each of the 21 terminal stations along its route, charging N20 only as the fare.

Rail transport has now become the preferred means of transportation for the masses in Kaduna State, due to its affordability and the most comfortable means of transportation, which also enables famers to easily convey their produce to the city centre without any problem.

Inter-city Train Service in Kaduna

7. HEALTH

As part of our keeping promises to the good people of the State, we, in taking cognizance of the need to ensure safe motherhood and reduce infant mortality, have since the inception of this administration provided free medical care to Pregnant Women and Children under five years throughout the State. This has tremendously reduced maternal and infant mortality in the State and it will continue in 2009.

200 Beds Specialist Hospital Design

Construction Started

The look of interior

Furthermore, we are fighting Malaria to a standstill, which result will ultimately be beneficial in arresting infant mortality. The Kaduna State Government, in recognition of the importance of healthcare delivery to its citizens, is committing resources towards providing the best healthcare services throughout the State. To this end, contract for the construction of a new state-of-the-art modern hospital has been awarded to Messrs Nahman Construction Ltd with a completion period of 30 months at the Kaduna Millennium City layout, while maternal healthcare facilities is being strengthened at the Local Government levels. Government is also investing resources in preventive healthcare through the provision of free vaccination as well as the sanitation of the environment; and is going to renovate primary health facilities throughout the State.

1.

GOOD GOVERNANCE AS A PRE-REQUISITE FOR SUSTAINABLE DEVELOPMENT

The Kaduna State Governo ensure computer literacy and most importantly that the nation catches up with the rest of the worldment will build a shopping complex along Muhammadu Buhari Way between Swimming Road and the roundabout at the space where the Ministry of Tourism and Culture as well as Ministry of Establishment and Training are currently sited. The ministries will be moved away to another site. The shopping complex will be built in partnership with private organisations to reduce street hawking in the state, especially along Ahmadu Bello Way.

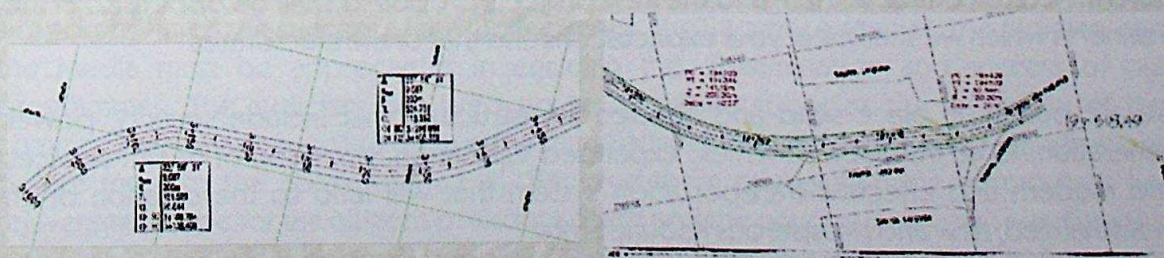

We are addressing the issue of women empowerment, children education in computer, youth poverty alleviation and job creation. Our thrust, in addition to providing social welfare to the people through programs like security, free medical healthcare, education and poverty alleviation, also seeks to address the infrastructural challenges which are very important to our local economic needs for sustainable development: like roads, rural development, energy and water.

New Irrigation canals being Constructed across the State

The Challenges of Consolidating Democracy & Development; and Strategies to manage such Challenges...

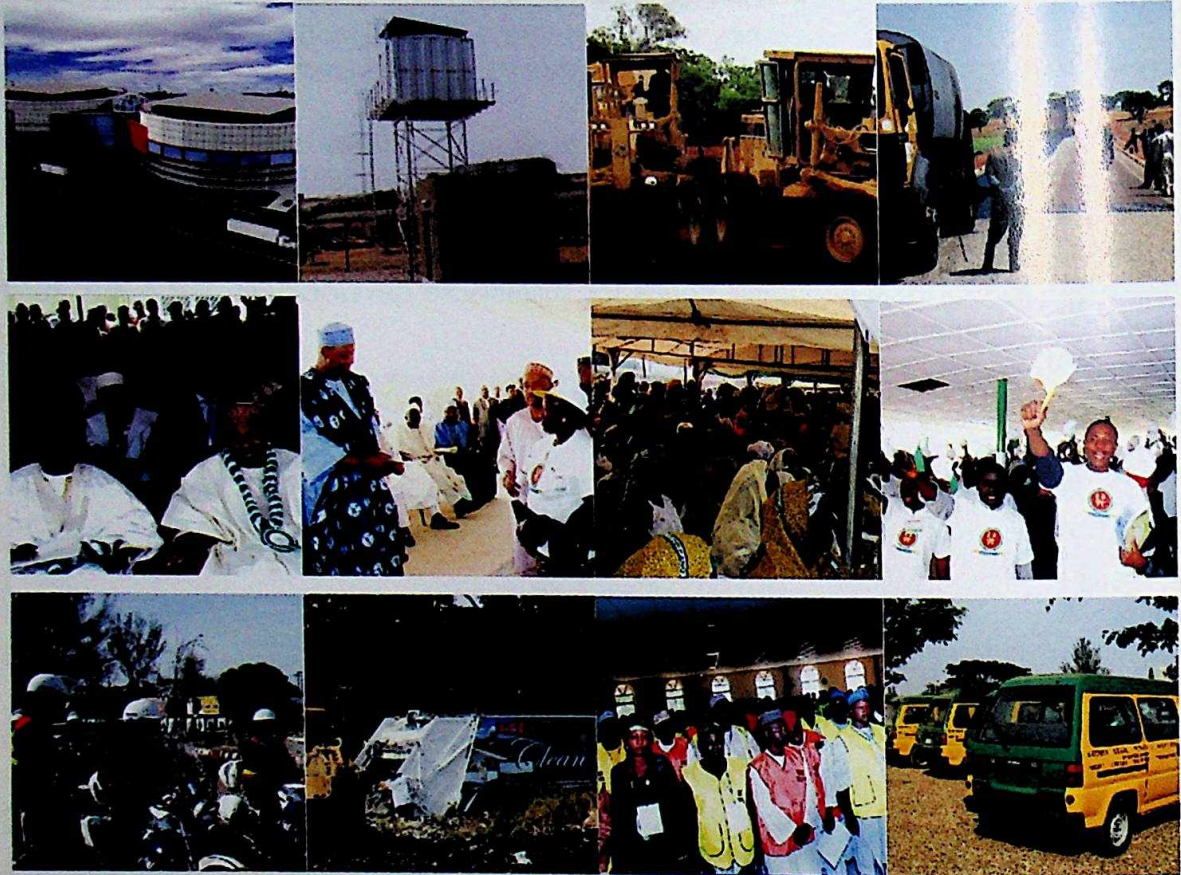

"In a Democracy, what matters most is free and fair elections and the rule of law, the courage to have results declared by the Electoral Commission for the loser to concede defeat and congratulate the winner and ensure that absolute peace and unity prevails in the community. For Development, change should not "be a change for the sake of change," but the change should be seen and felt by all with equal opportunity irrespective of ones religious beliefs, tribe, social class or political affiliation.

Design of Roads to be Constructed across all Local Government and Kaduna town and surrounding

Our strategy to manage our challenges is anchored on achieving our 11 Point Agenda on a more co-ordinated and citizen-driven manner covering the various sectors of the economy in the short, medium and long term implementation. The goal is to create a knowledge based ICT driven-economy for sustainable economic growth and citizen empowerment for wealth creation”...Gov. Arc. Mohammed Namadi Sambo, FNIA

CONCLUSION

The 2009 Budget addresses both the ongoing projects and the zeal with which the State is determined to complete them and the new projects proposed shall be dispensed in the manner in which we shall meet your expectations and that of the electorates.

We are putting in place solid and needed infrastructure that include security, power generation, large irrigation schemes, expanded education, provision of health services and modern and effective transportation system that will lead to the creation of an industrialized, new and prosperous Kaduna State.

We have adopted varied systems of contract execution in all fields of our socio-economic development. We appoint consultants to give us professional and specialist designs and recommendations which are in conformity with the internationally accepted practice the

world over. We have discarded the old order in Road Construction of "Contractor Design and Construct" to a more transparent and Best Practice System where the projects are properly designed and bid by various contractors. We had taken the pains to address some long outstanding problems that have been lingering, which have militated against the steady development of the State. We have embarked on solid, meaningful and viable projects at the expense of unjustified accusations by cynics for "slow but steady progress" in the State development. We are assuring the good people of the State, that what we are pursuing once completed will immensely add to the fortunes of the State and place it in an enviable position among its contemporaries. We shall not be deterred by retrogressive elements neither shall we be distracted from attaining our lofty ideals and dreams.

We shall continue to pursue Kaduna State of our dreams and further enhance our Welfarist programmes and projects because we believe our people deserve the best service from government that they put in place.

We call on all well-meaning people of Kaduna State to rally round us and give us the maximum support and cooperation needed towards attaining the well-fashioned Eleven-point Agenda which is on course. Our political friends, we equally extend our hands of friendship and call on them to partner with us in our tasks to making a better Kaduna State. To our political opponents, we call on them to think more of Kaduna State than anything else as the State is greater than any individual or group. We extend an olive branch to them to come and join us in our onerous tasks of State and Nation Building. To the electorate, we say a big thank you for the confidence you reposed in us to which we have sworn never to let you down and we stand by that testament.

Finally, we thank the People's Democratic Party (PDP) and we appreciate the roles played by relevant governmental agencies towards the success of our programme in the State. In particular the role of the Kaduna State House of Assembly, members of the National Assembly and the Organized Labour and the Private sector in the State is appreciated for their continuous cooperation. Special gratitude goes to our civil servants both in the state and at local level for the maturity and understanding they have shown under difficult and enticing circumstances. Their support and cooperation has to a large extent, contributed to the remarkable success this Administration has achieved. The Political Class, traditional rulers, religious leaders and the civil society are also appreciated for their support towards the success of the Government. The Security Agencies, the Judiciary and the Media must be appreciated in ensuring the dissemination and success of our programmes. The Judiciary has lived up to its expectations as the last hope of the common man. We appreciate them in the matured way they had handled all adjudications before them to the admiration of all. We urge them to maintain the tempo as it has rejuvenated hope for the citizens of Kaduna State and the country in general. May I use this opportunity to call on the good people of the State to continuously extend such support to enable us deliver fully on our outlined and executed programmes. Insha Allah we shall continue to keep our promises

"In the 21st Century, only states that share a commitment to providing safe environment, building human capacity and guaranteeing political and economic freedom will be able to harness the potential of their people and assure their future prosperity. People everywhere want to be able to live safely, speak freely, choose who will govern them, worship as they please, educate their children, own property, have access to basic healthcare and enjoy the dividends of democracy and their labour. These values of freedom are right and true for every person, for every Nigerian and indeed for every citizen of Kaduna State; and the duty of protecting these values lies with the government of the day. This is why we have our 11-point Agenda, the Promise of these Values and our commitment to providing Good Governance and Sustainable economic development with ICT as an integral part of the agenda.

We have founded a formula on how Public-Private Partnership (PPP) can work in ICT for economic and social development of the State and have come up with a comprehensive strategy from plan to a roadmap for better integration of all sectors of the economy aimed at bridging the digital divide and application of ICT to the workings of government to serve the public much better and more transparent". ..Gov. Arc. Mohammed Namadi Sambo, FNIA

"Kaduna State has been named the safest and the best place to do business in Nigeria by the World Bank 2008 Report largely because of our commitment to Security through Operation Yaki, our resolve to Industrial rejuvenation, our resolve to build our ICT capacity and provide enabling environment to attract Foreign Direct Investment (FDI) in areas Solid Mineral, Agriculture, Energy and our indomitable patriotic spirit to provide Good Governance to the people of Kaduna State".....Gov. Arc. Mohammed Namadi Sambo, FNIA
