## **FOREWORD**

This is a combined edition of Oyo State Statistical Year Book (2006-2010) produced by the Department of Macro Statistics and Research, Ministry of Economic Planning and Budget, Ibadan. It provides room for easy comparison of data for five years.

The objective of this publication is to make available useful data for planning, policy decision-making, research and other data needs to facilitate economic and social development in the State.

We are sincerely appreciative of the contributions from the following Ministries: Education, Agriculture, Works, Lands, Health and also the High Court of Justice, WATSAN, Water Corporation of Oyo State, State Universal Basic Education Board (SUBEB), Board of Internal Revenue, Nigerian Prisons Services, Agodi and Nigerian Police, Eleyele, Ibadan. We also express our gratitude to the agencies that had contributed to the success of this publication.

Useful suggestions and constructive criticism from users are welcome for future improvement.

Director,  
Macro Statistics and Research,  
Ministry of Economic Planning and Budget,  
Secretariat,  
Ibadan.

## PROFILE OF OYO STATE

### 1.1. LOCATION

Oyo State is one of the thirty- six states that constitute the Federal Republic of Nigeria. The State, highly urbanized and cosmopolitan, is located in the South West region of Nigeria on Latitude 8° North and Latitude 4° East bisects the State into four equal parts. Kwara State borders Oyo State to the North, Ogun State to the South, Republic of Benin to the West and Osun State to the East. Oyo State shares international border with Republic of Benin which is a unique opportunity for cross-border trading activities. Government readily took advantage of this and established a free-trade zone at the border town of Okerete with Opara River as a natural boundary.

### 1.2. TOPOGRAPHY

The State has a total land area of 27,405.677 square kilometer with wet/plain land of 26,487.21square kilometer (96.61%) and highland of about 928.877 square kilometer (3.34%). The topography of the State is one of the gentle lowland in the south rising to a plateau of 40m and above in the north. Ashuri Hill (479m) to the North-East is the highest peak in the State. Oyo State is well drained with rivers flowing from up land in the North-South direction. The major rivers are Oyan, Ofiki, Ogun, Oba, Owu, Shasha and Woro. The State is homogeneous comprising Yoruba and other tribes. Like all Yorubas, the people of Oyo State are descendants of ODUDUWA. Ibadan, the capital city of the State is reported to be the largest indigenous city in Africa, South of Sahara. Besides, there are other big cities and towns namely, Oyo, Ogbomoso, Iseyin, Saki, Eruwa, Igbo-ora, Okeho.

### 1.3. CLIMATE

The climate is equatorial in nature, thereby characterized by humidity and substantial rainfall which varies within the zones. The rainy season lasts from April to October and the dry season from November to March. However, in recent years, noticeable fluctuations have been observed in weather and rainfall pattern in the State.

### 1.4. VEGETATION

The vegetation pattern is one of rainforest in the South and guinea savannah to the North. The State is rich in flora and fauna. Thick forest in the South give way to grassland interspersed with trees to the North. Based on difference in parents' materials, mode of soil formation, drainage conditions, texture and colours, the soil in Oyo State can be classified as sedimentary, hill wash and hydro orphic soil types. The soil is generally well drained, except in the valley bottom and those areas close to the drainage channels where the soils are poorly drained.

## 1.5 POPULATION

The population figure for the State according to 1991 Census exercise was 3,514,709 while the 2006 Census put the State population at 5,580,894 consisting of 2,802,432 males and 2,778,462 females. About 52% of the population resides in urban and semi-urban areas of the State. The young persons of less than 5 years constitute 12.79% while women of childbearing age constitute 26.26% of total population. Meanwhile, the overall dependency ratio for the State is low. The state has a crude birth rate of 32/1000.

## 1.6 AGRICULTURE

Agriculture is the major source of income for the larger number of the people of Oyo State.

Apart from the primary role of providing food and shelter, employment, industrial raw materials, it remains an important source of Internally Generated Revenue for the State. The climate favours the growth of food crops like Yam, Cassava, Millet, Maize, Fruits, Rice, Plantains and Vegetables, among others. Cash crops such as Cocoa, Citrus, Tobacco, Cashew and Timber also abound in the State.

The state can boast of the following institutions and facilities: A rural-based agricultural outfit called Oyo State Agricultural Development Programme (OYSADEP) specifically established to stimulate efficient agricultural production. This establishment transfers proven and adaptable technologies in all areas of agricultural practices and thereby increases farmers' productivity, income and standard of living.

The State has eight (8) farm settlements with a total land area of 18,318.13 hectares, nine (9) forest reserves covering a total of 342,461 hectares of land. The Oyo State Agricultural Inputs Supply Company Limited (OYSAISCO) is an agency saddled with the sole responsibilities of procurement, storage and distribution of farm inputs to farmers in the State. There is also Agricultural Credit Corporation of Oyo State (ACCOS) which grants loans at reasonable rates and terms within the farmers' resources.

## 1.7 GOVERNMENT

Oyo State, which is tagged "Pace-Setter State", came into existence consequent upon "State creation exercise after Nigeria's independence in 1960. Western region was one of three regions created by the McPherson constitution of 1954, which gave autonomy to the regions. Chief Obafemi Awolowo was the first Head of Government in the region which became self-governing region in 1957. The Mid-Western Region comprising the present Edo and Delta States were carved out of the Region in 1963. In 1967, State creation exercise, Western Region was re-named Western State. Also in 1976, both Ondo and Ogun States were created from the Western State and what remained of the State was renamed Oyo State. Again in 1991, Osun State was carved out of the old Oyo State. From the Western Region days, Ibadan reputed to be

the largest indigenous city has been the capital and centre of administration.

### **1.8 POLITICAL AND ADMINISTRATIVE STRUCTURE**

Elected Executive Governor, assisted by the Deputy Governor, Secretary to the State Government, Head of Service and Honorable Commissioners constitute the State Executive Council. The State Executive Council heads the State administration with the assistance of the Permanent Secretaries, who see to the running of the day to day business of the Government. Also appointed to oversee and formulate policies for Parastatals and State-owned Companies are Chairmen and other members of the Board. The General Managers and the Management Staff of various Parastatals and Government-owned Companies are saddled with the responsibility of implementing government policies.

Following the nationwide Local Government Reform of 1976, Oyo State came into existence with 24 Local Government Areas. However, various restructuring and reforms have given birth to the present 33 Local Government Areas in the State. According to the Local Government edict of 1996, the Local Governments have responsibility and exclusive powers to make bye-laws to enable them perform statutory and other functions such as, building and maintenance of abattoirs, sanitary inspection, night soil disposal, provision of public conveniences, community recreation centers, parks, gardens and spaces and registration of births, deaths and marriages. The Ministry of Local Government and Chieftaincy Matters has amongst its functions and objectives, the monitoring of the activities and performances of all the 33 Local Governments, provision of guidelines and exercising control on the finance and budgeting of the Local Governments. Others include approving Local Government budgets and plans, establishing database for Local Governments to facilitate strategic planning at the grassroots level and to deal with all matters. Also, the Local Governments Service Commission is responsible for appointments, transfer, promotion and discipline of staff in the unified Local Government service. Like other States of the Federation, Oyo State has 3 Senatorial Districts. Oyo North Senatorial District consists of 13 Local Government Areas; Oyo Central Senatorial District consists of 11 Local Government Areas while Oyo South Senatorial District consists of 9 Local Government Areas.

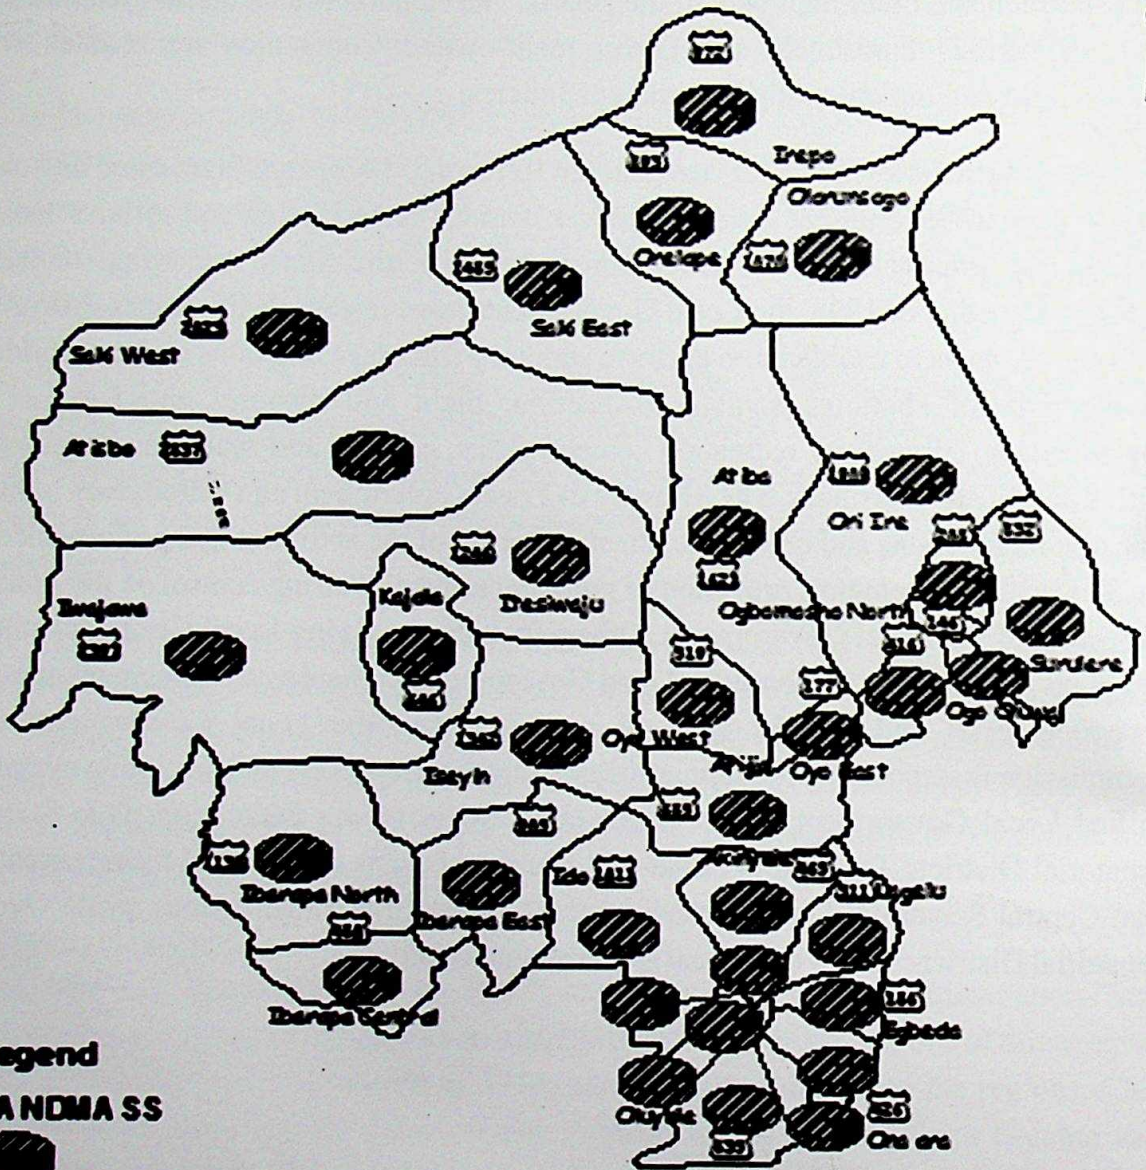

# LANDMASS

## LANDMASS AREA OF OYO STATE

## CHAPTER ONE

### LAND AREA AND CLIMATE

"This section provides information on Land Area and Climatic Condition of Oyo State. The information is presented on Terrain, Landmass and Annual Rainfall. The Average Daily Minimum and Maximum Temperature are based on monthly data analysis. Oyo State has a total land area of 27,405.68 square kilometers with wet/plain land and highland constituting 96.61% and 3.39% respectively. Saki West, Iwajowa, and Atisbo Local Government Areas occupy land area above 2,000 square kilometers while Ibadan North East Local Government Area has the least of 51.25 square kilometers. In the State, the Mean Annual Rainfall was evenly distributed in the thirty-three (33) Local Government Areas ranging from 1,010mm to 1,535mm. The least mean annual rainfall of 1,010mm was observed for Olorunsogo, Oorelope and Saki West Local Government Area while the highest of 1,535mm was recorded for Akinyele Local Government Area. According to table 1.3, the Average Daily Minimum Temperature in the State was evenly distributed from January to December. The Average Minimum Daily Temperature of 21.33C was recorded in January and August. Average Daily Maximum Temperature observed for the State ranged between 27.7C in August and 35.4C in February. "

## CHAPTER TWO

### POPULATION AND POPULATION DENSITY

"According to the 2006 census exercise, the total population for Nigeria was 140,431,790 with male and female population constituting 50.80% and 49.20% respectively (Table 2.1). From the table it was observed that Oyo State constituted 3.97% of the total population. The actual total population of Oyo State in 2006 was 5,580,894 with male and female populations of 2,802,432 and 2,778,462 respectively (table 2.2). According to the table, the highest population of 331,444 was observed in Ibadan North East Local Government Area where Female population was noticed to be more than Male population. At the growth rate of 3.2%, the population of Oyo State was estimated to be 5,759,483 in 2007. Meanwhile, the estimated population increased to 6,330,408 in 2010 with male and female populations of 3,178,799 and 3,151,609 respectively (table 2.4). The highest population figure was observed for Ibadan North East Local Government Area (375957) while the least of 73,954 was observed for Ogo Oluwa Local Government area, (See Chart 2a). A broad base age distribution was observed for the State (see chart 2b). The highest population for 2006 to 2010 was located within the age group 5-9 followed by that of age group 0-4 (tables 2.3 and 2.5). From the tables, young children of age less than five years constituted 12.79% while children in age group 5-9 constituted 13.06% of the total population. Meanwhile, women of child bearing ages were 26.26% of the total population in 2010. With a land mass of 27,405.668 Square kilometer, it was observed from table 2.6 that population density for the State was 231 persons per square Kilometer in 2010. Meanwhile, the highest population density of 5189 persons per square kilometer was observed for Ibadan South East while the least of 44 persons per square kilometer was recorded for Atisbo Local Government Area in 2010. Birth registrations in the State Medical and Health Institutions appeared to be falling from 81,618 births in 2006 to 42,885 births in 2008. The registration increased by 34.34% in 2009 and reduced by 1.44% in 2010 with the highest observed for Ibadan North Local Government Area, (see tables 2.7).

## CHAPTER THREE

### AGRICULTURE

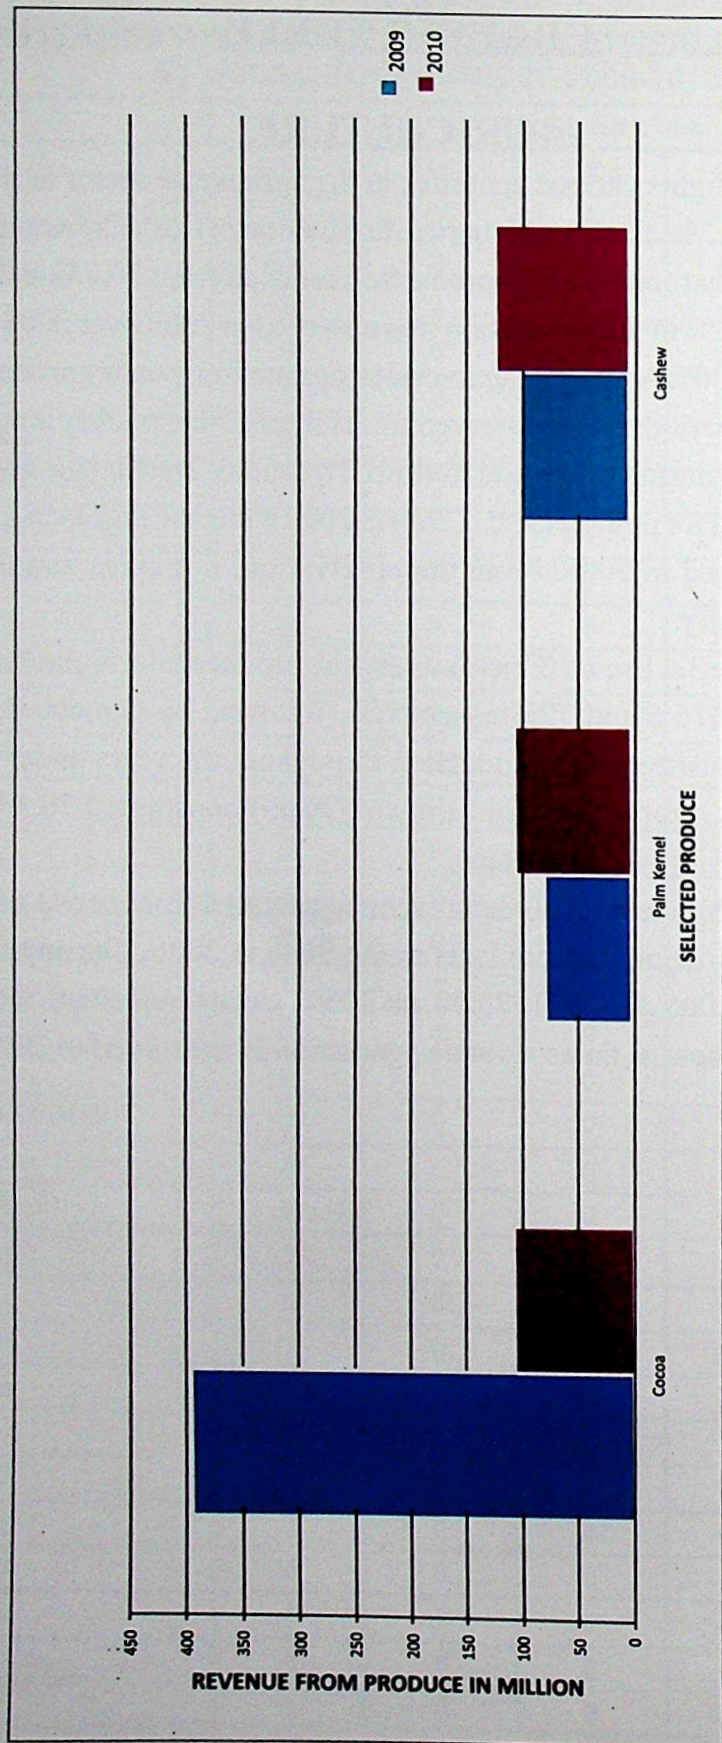

This section highlights various activities in the agriculture sector in the Oyo State. The areas of coverage include Vaccination, Fisheries, Production of Cash Crops and Livestock.

Table 3.1 shows that total poultry production reduced from 30,752 in 2005 to 12,527 in 2006. An increase of 19.1% in the production was observed in 2009 over 2008 production while there was no record for 2007. Among other livestock production, poultry production remains the highest during the same period. It was observed from table 3.2 that poultry topped the list among the livestock slaughtered during the period, followed by cattle. The highest number of livestock slaughtered was observed for poultry (3,050,762) in 2009 while the highest number of cattle was observed to be slaughtered in 2008. From the observation, it implies that the people mostly consumed cattle and poultry.

According to table 3.4 Eruwa (Opeki) reservoirs produced the highest metric tons of fish in 2008 and 2009 with 516.6 and 725 respectively, followed by Ogunpa reservoir. The two reservoirs maintained consistent fish production throughout the years under study. Out of the total production in 2009, production from Eruwa (Opeki) constituted 29.18%, the least was observed for Saki (Oge) with 107 metric tons.

It was observed from table 3.10 that revenue generated from cocoa constituted 60% of total revenue from three major cash products in the State in 2006. The amount dropped from ₦2,096,685,250.00 in 2006 to ₦391,970.00 in 2009. Cocoa remained the most populous produce followed by cashew as far as revenue generation is concerned in 2008 and 2009. (See chart 3a).

## CHAPTER FOUR

### MOTOR VEHICLE.

This section presents information on motor vehicle inspection, registration and road traffic accidents. The activities cover driving test conducted for drivers and motor vehicles inspected, registration for learners permit, vehicle license, professional drivers' license etc. Incidence of road traffic accidents, distribution, causes, fines and persons involved and type of vehicle involved in road traffic accidents are considered in the analysis.

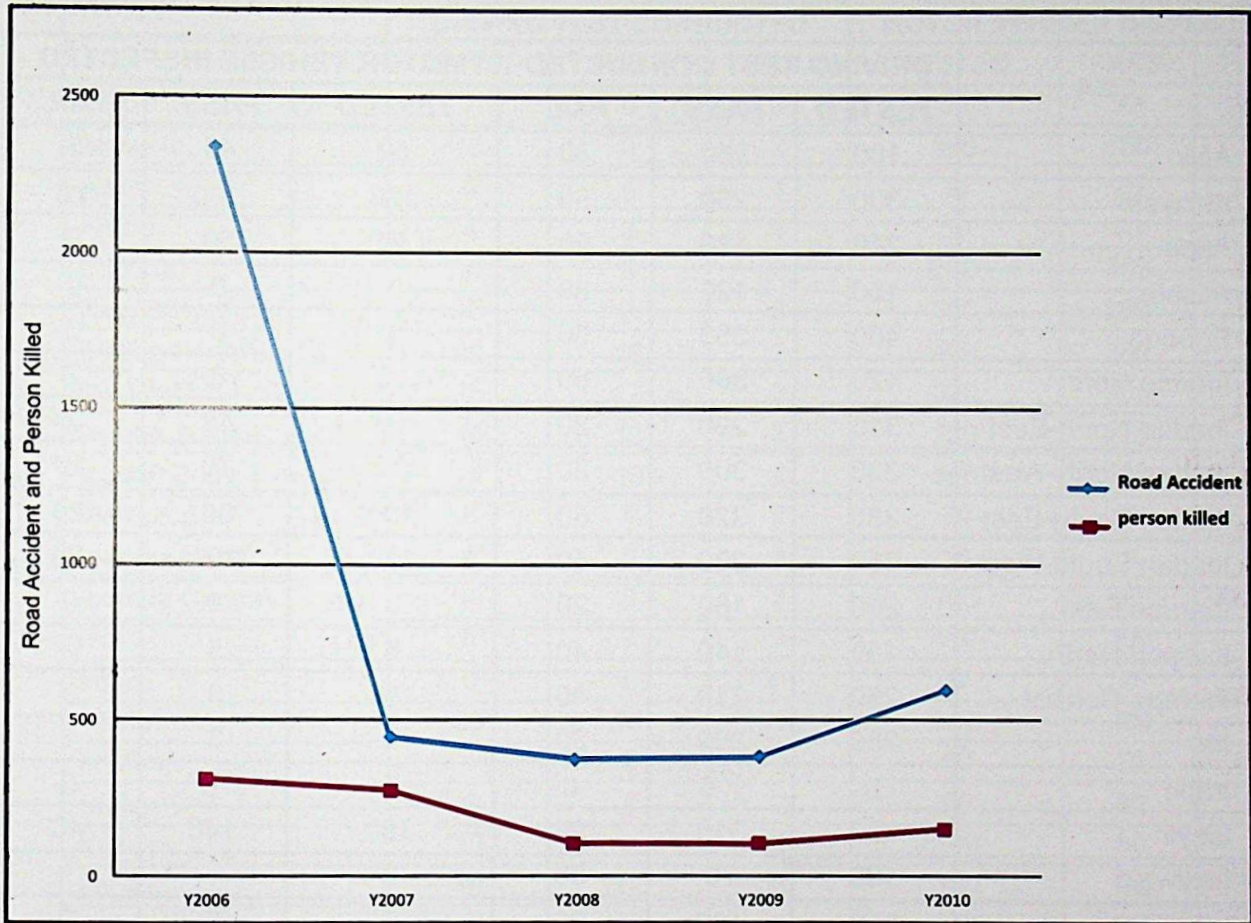

Table 4.1 shows that 7,660 driving tests were conducted in 2006 while 1,319 motor vehicles were inspected. The number of driving tests conducted dropped by 95.73% in 2007 with the highest number observed for Ibadan North East and Iseyin (20). The number of motor vehicle inspected dropped by 252.92% in the same year. Gradual increase in the number of motor vehicles inspected was observed from 2007 to 2010 (tables 4.3 to 4.5). Tables 4.5 shows that out of 10,150 motor vehicles inspected 9,180 passed the inspection in 2010 and this represents 90.85% of total.

Table 4.8 shows that there were reductions in the total registration for new learners permit from 8,096 in 2006 to 4760 in 2007 but increased to 6106 in 2008. Meanwhile, 16.00% reduction in the total registration was observed for 2009 while the number also reduced by 35.87% in 2010. During the period, Ibadan North West Local Government area (Secretariat, Bodija licensing authorities and Onireke) appeared to be well patronized by the people for vehicle license, learners permit, private, professional and private licenses (tables 4.6 to 4.15).

Out of the total number of newly registered and motor cycles in 2008, motor cycle registration constituted 80.05% of registration (2,115) total. In 2010, registration of new motor cycles increased from 1693 in 2008 to 7,867 while renewal increased from 422 in 2008 to 6,208 in 2010. (Tables 4.14 and 4.15). The highest number of registration was observed for Loyola Local Government. (Tables 4.15).

According to tables 4.16 and 4.27, it was observed that from 2006 to 2010, the highest number of road traffic accidents from selected causes occurred in 2006 (2,320) and the least in 2008 (371). During the same period, there was a reduction in the number of persons killed from 293 in 2006 to 117 in 2009 with an increase of 47.86% in 2010, (See chart 4a). Excessive speeding and carelessness/negligence were the major causes of road traffic accidents during the period. From the observations, more vehicles of different types were involved in road traffic accidents in 2006 compared to other years. Meanwhile, private cars topped the list of vehicles involved in road traffic accidents in 2009 (table 4.33).

## CHAPTER 5

### MEDICAL AND HEALTH

Health facilities and treatments are considered in this section. From 2006 to 2010 it was observed that Maternity Health Centers constitute over 20% of the total health facilities in the State. These facilities are spread all over the thirty three (33) Local Government Areas of the State with the highest number of twenty three (23) located in Saki West Local Government Area from 2006 to 2009. According to tables 5.1 and 5.5, twenty six (26) General hospitals were located in twenty one Local Government areas of the State in 2006 and 2010 respectively with the highest number of two located in five Local Government Areas.

In terms of ownership of the health institutions in the State, private ownership topped the list followed by the Local Governments. Private health institutions constituted more than 55% (Table 5.6 to 5.9). From 2006 to 2010 the number of Local Government owned Medical and Health institutions rose by 7.47% with the highest located in Surulere Local Government area. Meanwhile, the number for the State owned Medical Institutions dropped from 55 in 2006 to 54 in 2008 (1.82%). It was observed from table 5.10 that Ibadan South West had the highest number of State owned medical and health institutions during the period. The Federal Government owned medical and health institutions were observed to be located in the following seven Local Government areas: Akinyele, Ibadan North, Ibadan North-West, Ibadan South-West, Ibarapa Central, Ibarapa East, and Oluyole Local Government Areas.

According to tables 5.11 to 5.12, the incidence of Malaria and Dysentery were consistently high during the period of 2006 to 2008. From 2006 to 2008 the highest incidence of 368,780 were observed for Malaria in 2006 and the highest of 36,332 for Dysentery in 2006. Meanwhile, table 5.12 indicates that

Ogbomoso North Local Government Area recorded the highest incidence of Malaria (45,930) in 2008 followed by Ibadan North Local Government Area (37,064) while the least of 67 was observed for Ogbomoso South Local Government Area.

It was observed from tables 5.15 to 5.17 that there were more beds in the Maternity Health Centers than the General Hospitals. In table 5.17, out of the total number of beds (6,317) observed for 2009, Private Hospitals and Maternity Health Centers constituted 35.59% and 35.44% respectively.

From 2006 to 2010, the total number of children vaccinated with BCG, Polio, DPT, Measles and Yellow fever vaccines increased by 126.01%. A total number of 677,235 children were vaccinated in 2006. However, it was observed that 1,771,609 were vaccinated in 2009, 10.34% above 2008 figures (see chart 5a). Out of the total number in 2009, the highest number of children (32.98%) had DPT vaccine followed by Oral Polio with 32.74%. During the period, the highest number of children vaccinated came from Ibadan North Local Government Area with 130,263 children followed by Ibadan South West Local Government Area with 102,035 children. The least of 21,748 children were observed for Olorunsogo Local Government Area, (see chart 5a). It was observed that number of children vaccinated reduced from 1,771,609 to 1,530,625 in 2010 a short fall of 13.60%.

## CHAPTER SIX

### JUSTICE AND PENAL ORGANIZATIONS

This chapter treats robbery and murder cases handled by the High Courts and the Magistrate Courts during the period of 2006 to 2010. The analysis also covered information on the prisons inmates in Oyo State for the same period.

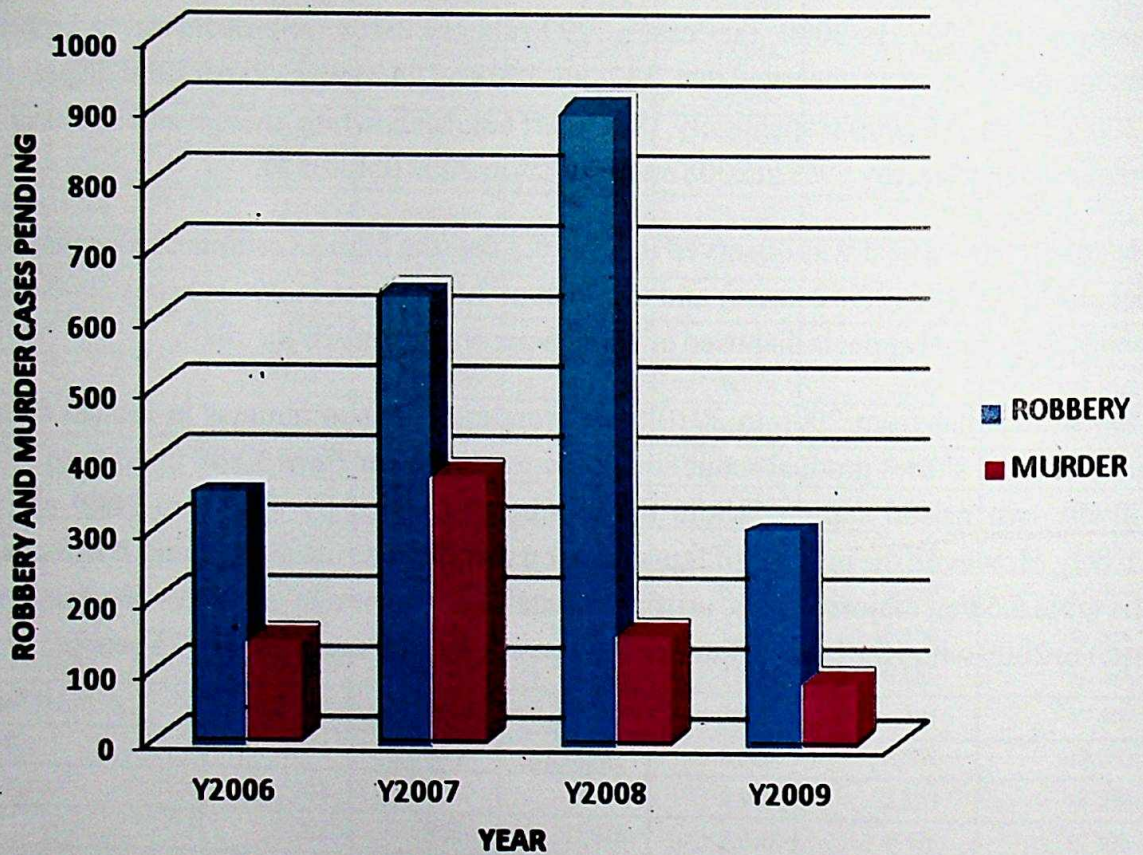

According to table 6.1, from 2006 to 2010, it was observed that the highest robbery cases pending in the High Court were recorded in 2008 (904 cases) while the highest murder cases were recorded in 2007. In 2009, the least of 299 robbery cases were observed to be pending whereas in table 6.2 it was observed that, 132, 96, 170 and 74 robbery cases were disposed of in 2006, 2007, 2008 and 2009 respectively. (See chart 6a). Meanwhile, there was a shortfall in the number of murder cases by 59% in 2008 and 42.68% in 2009 (table 6.1).

In the Magistrate courts; it was observed in table 6.3 that the highest criminal cases disposed of were recorded in 2006 (2,552 cases) and the least of 1,871 cases in 2007. From 2006 to 2010, there were 20 criminal appeals disposed of while none was observed for 2010.

Table 6.4 shows that from 2006 to 2010 there were more prison inmates in Ibadan than Oyo prison. The table shows gradual reduction in the total number from 3,847 in 2006 to 3,750 in 2008 in the two prison stations while the number increased by 4.56% in 2009 and 2010 respectively. However, the number of female prison inmates was not significant. It was observed from the table 6.5 that majority of the prisons inmates were in the age group 26–50 years with the exception in 2009 when the largest number was recorded in the age group 21–25 years.

## CHAPTER 7

### FIRE SERVICES

It was observed that fifteen (15) Fire Service Stations were located in different parts of the twelve (12) Local Government Areas of the State in 2009 with five (5) Special Services (non-chargeable) in Five Local Government Areas (Tables 7.1 & 7.2). It was observed in table 7.3 that two (2) Fire Service Stations were located in each of the Ibadan North, Ibadan South East and Ogbomoso North Local Government Areas. The Special Services (non-chargeable) were also available in the designated stations like Secretariat (headquarters), Oyo, Molete, Agbowo and Ogbomoso. (Tables 7.2 & 7.4).

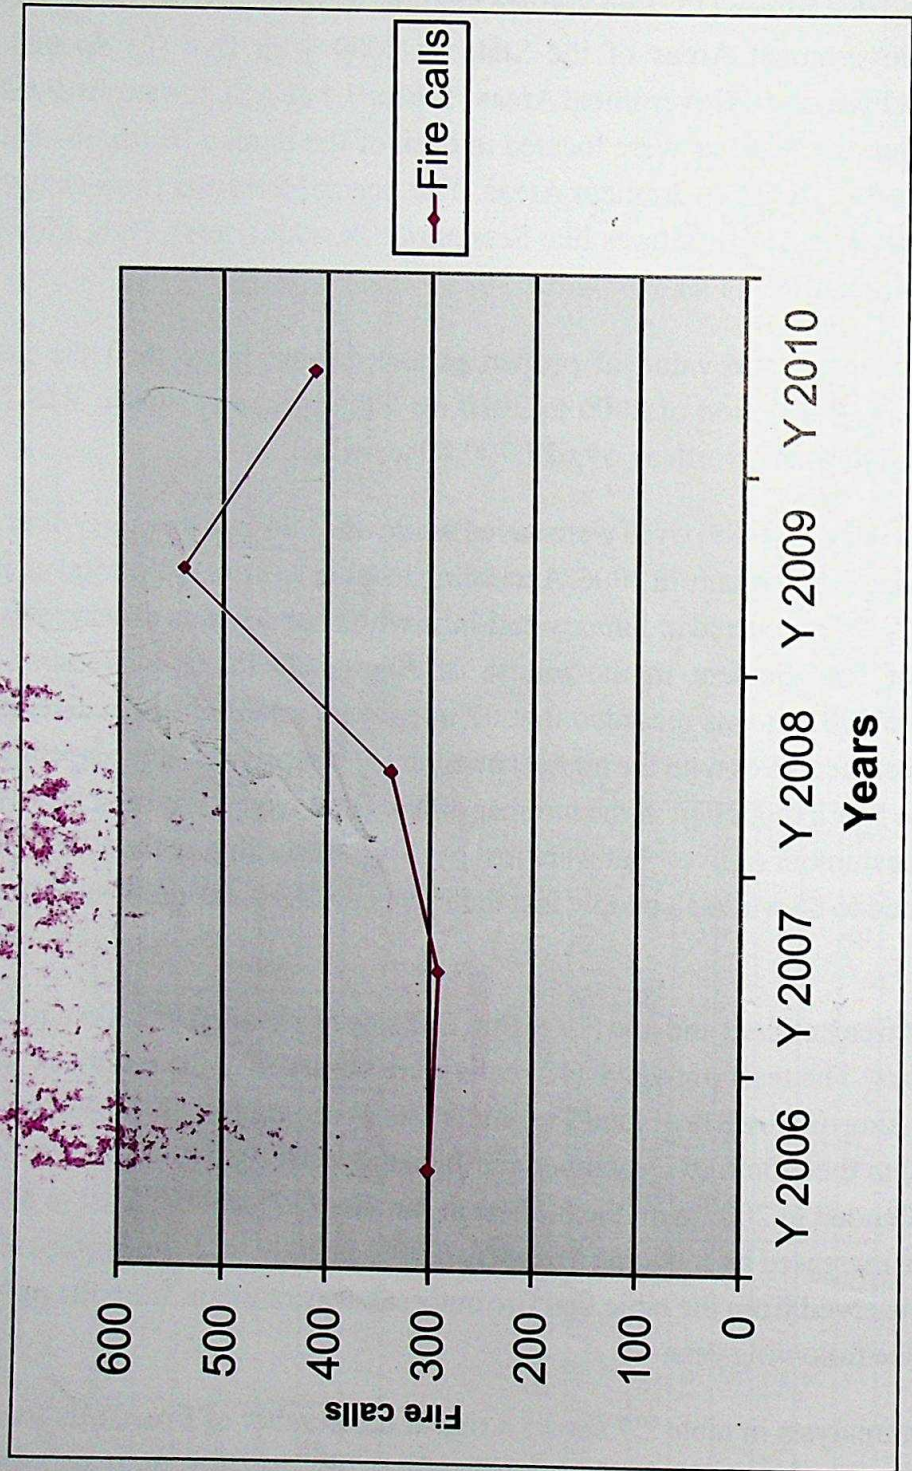

Table 7.5 shows that the value of properties saved were more than the value of property destroyed during the period of 2006 to 2010. In 2009, property worth 418,221,000.00 were saved while the property worth of 59,617,700.00 were lost.

Meanwhile, eighty nine (89) lives were saved while one hundred and forty-four (25) people lost their lives in the fire incidents in 2006. According to table 7.6, out of the total number of lives that were lost, 16% (25) occurred in January and June while nobody was observed to lose his/her live as a result of fire incident in the month of August, October, November and December. Meanwhile, in 2007, it was recorded that 87 lives were saved in fire accidents while eighteen (18) people lost their lives with the highest number (5) in April and July respectively (Table 7.6). In 2008, there was a reduction in the number of lives that were saved and lost by 12.64% and an increase in the number of lives that were lost by 50%. According to the table, the number of live saved increased to 85 while 18 people lost their lives. In 2010, the number of lives lost increased by 27.78%

In table 7.7, three hundred and one (292) Fire Calls were attended in 2006 with the highest of 86 calls in January. The least of twelve (12) calls were observed in the month of September for the same year. A shortfall by 3% of total Fire Calls was observed for 2006 with the highest (42) and the least (18) in the month of December and June respectively. However, a total number of 339 calls were attended in 2007 with the highest in January (87) and the least in May (11). In 2008, the total calls increased by 59% and a drop by 0.56% in 2009 with the highest (70) in December. It was also observed from the table that fire outbreak was rampant from the month of December to February the following year.

Comparative analysis in table 7.7 shows a rise in the number of Fire Calls from 292 in 2006 to 339 in 2007. It was observed from the table that from 2007 to 2009, there was upward trend in the number of Fire Calls and short fall recorded in 2010. Meanwhile, reduction in the number of lives that were saved or lost was recorded during the period. (see chart 7.a).

## CHAPTER EIGHT

### EDUCATION STATISTICS

This section provides data on Primary, Secondary and Post-Secondary Institutions in the State. The tables depict data on the number of schools, pupils and students enrolments as classified by Type, Sex and Local Government Areas. Data on the number of Teachers are also considered in the analysis.

From Tables 8.1 to 8.4, it was observed that in 2006/2007 and 2007/2008 academic sessions, 2115 public primary schools were located in all the thirty-three (33) Local Government Areas while the number of schools increased by one in 2008/2009 and 2009/2010 academic sessions (2116). According to the tables, in 2006/2007 academic session, the number of secondary schools increased from 1,074 to 1,090 in 2007/2008 academic session while in 2008/2009 the number dropped to 1,006 (7.7%). The same figure was observed for the number of secondary schools in 2009/2010 academic session.

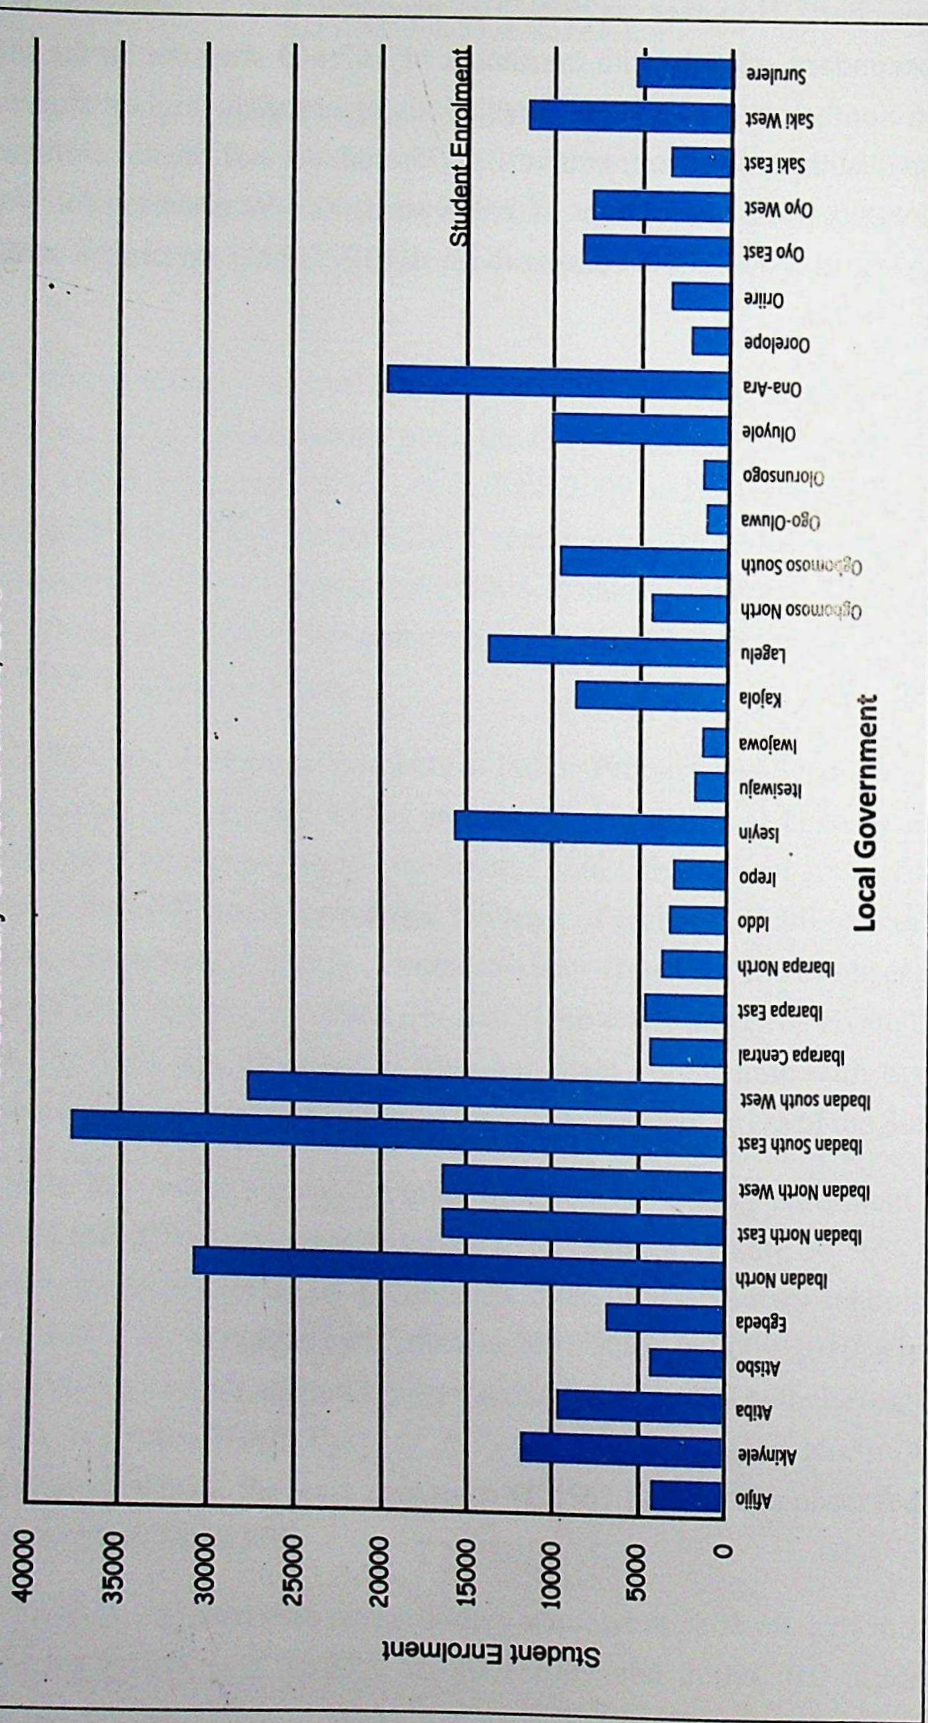

Meanwhile, in 2009/2010 the highest numbers of Public Primary and Secondary Schools were observed to be located in Akinyele (122) and Ibadan North Local Government Areas (86 schools) respectively. Ogbomoso North and South Local Government Areas had the least of twenty four (24) Primary Schools each while the least of eight (8) Public Secondary Schools were observed for Olorunsogo Local Government Areas. However, it was observed from table 8.4 that there were one Federal University, one State University and two private Universities in the State. Also, the State was observed to have one State Polytechnic with two (2) Satellite campuses located in Ibarapa East and Saki East Local Government Areas of the State.

According to table 8.5, out of the total number of 1,105,146 pupils' enrolment in 2006/2007 academic session, 560,259 pupils were observed to be females that are 50.70% of total. From tables 8.6 and 8.7, the total number of enrolments in the public primary schools increased by 32.45% in 2006/2007 only to reduce by 17.40% in 2007/2008. In 2009/2010, a total enrolment of 879,532 was observed which indicates further reduction of 3.65% with the highest number of pupils enrolment in Ibadan North East (42,293) followed by Ibadan North (42,271) Local Government Areas. However, the least enrolment (15,561 pupils) was observed for Oorelope Local Government Area (Table 8.9).

From Tables 8.9 to 8.12, enrolment in the secondary school dropped by 0.30% in 2007/2008 and dropped further by 8.82% and 12.87% in 2008/2009 and 2009/2010 academic sessions

respectively (see chart). However, in 2009/2010 academic session more male enrolments was observed for secondary schools with enrolment of 162,665 students. In the same academic session, Ibadan South-East Local Government Area recorded the highest students' enrolment (37,880 students) with male enrolments of 22,675 students and female enrolment of 15,205 students. Whereas the least enrolment of 2,376 students was observed for Oorelope Local Government Area in 2009/2010 session with 1,130 female enrolment and 1,246 male enrolments (table 8.12).

## CHAPTER NINE

### PRICES

"This chapter provides Retail and Wholesale Average Prices of selected food items in some selected towns. Wholesale and Retail Prices of Gari, White beans, White rice, Yam flour and Palm oil are considered in the analysis."

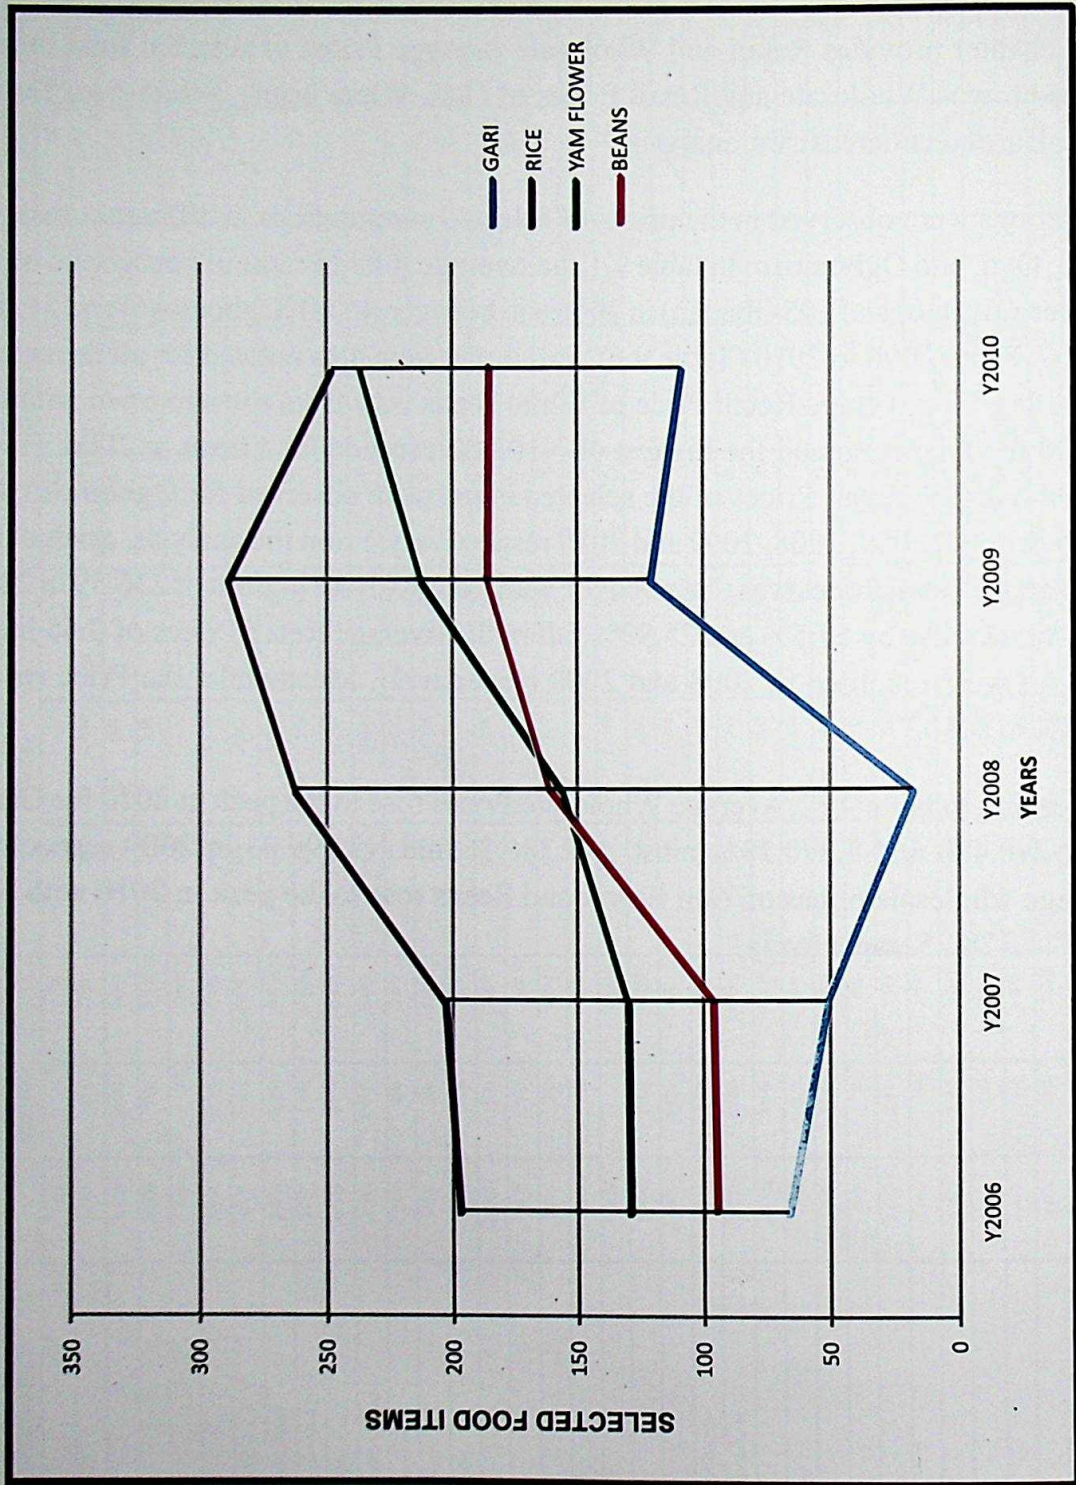

"Variations were observed in the prices of selected commodities in different towns of Ibadan, Iseyin, Oyo, and Ogbomoso. In table 9.1, the Average Retail Prices of one Kongo of Gari range between 66 (Oyo) and 105 (Ibadan) in 2006 and between 46.00 (Ogbomoso) and 51.00 (Ibadan) in 2007. From 2006 to 2010 (Table 9.6), variations were also noticed for all the selected items (Chart 9a). The Average Retail Price of White beans vary from town to town with the least of N84.00 in Ogbomoso and the highest of N103.00 recorded for Eruwa in 2006. However, the highest Average Retail Prices of the selected items were observed for Ogbomoso, Eruwa and Iseyin in 2006, 2007, 2008, 2009 and 2010 respectively. From the analysis, gradual increase in the Average Retail Prices was observed for Yam flour with the highest of 236.59 in 2010 (Tables 9.6). An increase by 57.5% and 25.99% fall in the Average Retail Prices of 0.65 liter bottle of Palm oil were recorded in 2008 and 2009 respectively. Meanwhile, the Price rose again by 14.54% in 2010."

"According to table 9.12, Average Wholesale Prices rose to the peak in 2010 for Gari and Rice fell to N6,480 and 7,390.23 against N7,386.76 and N7,999.03 in 2009 respectively while Average wholesale prices of Yam flower and Beans rose to the peak in 2010 with N25,500.79 and N11,128.75 respectively."

## CHAPTER TEN

### WATER STATISTICS

Water supply is an important social service which has direct impact on the quality of life of the people. Distribution of Boreholes, Supply of Portable Water and Water Treatments are considered for analysis in this chapter.

Table 10.1 shows that the total number of Boreholes Drilled increased by 32.71% (142) in 2007. The number increased by 35.92% in 2008 reduced by 43% in 2009 while a shortfall by 43% (110) was observed for 2009, (chart 10a). Meanwhile, one hundred and ten (110) Boreholes were drilled across the eighteen (18) Local Government Areas in 2009 with the highest number of twenty five (25) for Ogbomoso North Local Government Area. The least number of one (1) Borehole was drilled in each of Atiba, Oluyole and Oyo East Local Government Areas in 2009. During the compilation of this statistical year book publication, bore hole data for 2010 was not available.

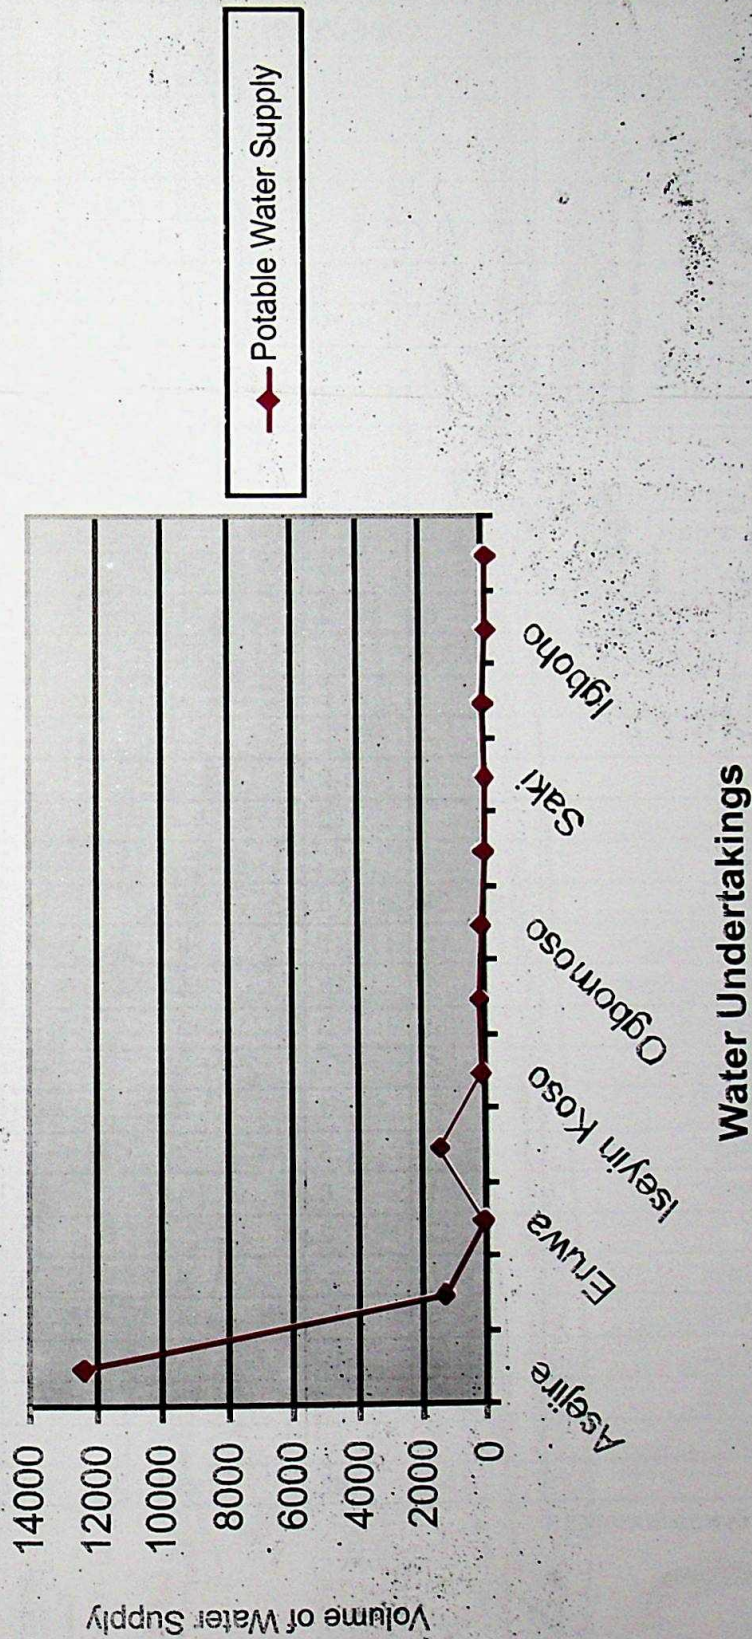

To compliment Supply of Water in the State, the volume of water released by Oyo State Water Corporation in 2006 was 15,330.17 million liters. The volume dropped to 12,008.30 and rose to 14,317.39 million liters in 2007 and 2008 respectively. Table 10.2 shows that the volume of water supplied increased by 10.5% in 2009 and 9283.14% in 2010. Out of the total volume of water supplied (in million liters) in 2010, Asejire Undertaken supplied the highest with 1,036,758.21 million liters. The least volume of 6.94 million liters of water was supplied from Igboho Undertaken.

From Table 10.3, there were slight fluctuations in the Usage of Aluminum Sulphate during the periods of 2006 and 2007. The Metric Tons of Aluminum Sulphates applied for water treatment in 2010 (43,964.86) happened to be the highest in five years (2006-2010) with more usage in August.

Gradual reduction in the Metric Tons of Hydrated Lime applied for water treatment was observed from 2006 to 2007 (table 10.4). From the table, a shortfall by 19.45% (5336.56 in 2007 metric tons) and it rose again to 61.90% (8,639.64 metric tons) and 28.85% (11,218.17 metric tons) in 2008 and 2009 respectively. The Metric Tons dropped by 42.0% (6,505.98 metric tons) in 2010.

It was observed in table 10.5 that thirty – five (35) 1000kg Drums were used for water treatments. The total number dropped by 45.71% and 26.32% in 2007 and 2008 respectively. Meanwhile, in 2010, 30.92 1000kg Drums were used with the highest number of drums (4.94) in June.
