## 1.0 INTRODUCTION

Government Accounting is seen as the process of recording, analysing, classifying, summarising, reporting and communicating financial information about government transactions involving the receipt, transfer and disposition of public funds and property.

Governments around the world are required to be more accountable for their public budgets and to produce accurate, meaningful and transparent financial statements. International Public Sector Accounting standards (IPSAS) enable public entities to show clear accrual accounting and budgeting techniques and demonstrate results-based monitoring and reporting.

IPSAS are a set of accounting standards issued by the IPSAS Board for use by public sector entities around the world in the preparation of financial statements. These standards are based on International Financial Reporting Standards (IFRS). The Financial Reporting Council of Nigeria (FRC) is expected to drive the implementation process.

The Plateau State government is targeting the proposed implementation of the International Public Sector Accounting Standards (IPSAS) to revamp the accounting and reporting of her financial transactions.

The implementation of IPSAS in Plateau State commenced in 2014 with the CASH BASIS. It is expected that the implementation of IPSAS CASH BASE and the ACCRUAL accounting in 2016 will mark a turning point in the accounting and reporting of government financial transactions. The adoption of Accrual-Based Accounting in an IPSAS environment (CASH BASE environment) will facilitate a complete, true and fair view of financial transactions and promote transparency and accountability in financial reporting of the State government

In order to improve the Public Financial Management System, the State government introduced reforms such as Financial Integrated Management Information System (FIMIS), Treasury Single Account (TSA) and Payroll Automation System (PAS).

The objectives of FIMIS are to improve the State government's economic and financial management systems and processes; and to firmly establish a reform process of the state civil service to improve professionalism in governance. It aims at improving the acquisition, allocation, utilisation and conservation of public financial resources for enhanced, accountable, transparent and cost effective public service delivery.

On the other hand, the TSA was introduced because for long, government's ability to finance its budget had been greatly hampered by an inefficient, wasteful and chaotic banking arrangement and revenue collection. These were characterised by large sums of idle cash being warehoused in several bank accounts operated by some ministries, departments and agencies (MDAs) while government borrows to finance other MDAs. Also, because of the inability of government to know its cash balance as well as the non-remittance of revenue collected by some MDAs and their agent banks into government coffers.

The Plateau State government just as the FGN has also introduced Cash Management Policy (CMP) built on the following thrust:

- i. to ensure that sufficient cash is available as and when needed to meet commitments to make payments;
- ii. to control aggregate cash flows within fiscal, monetary and legal limits;
- iii. to improve the management of government's domestic borrowing programme;

- iv. enhancing operating efficiency through the provision of high quality services at minimal costs;
- v. investment of excess or idle cash; and ensure greater accountability for public expenditure.

With the approval and directive of the Plateau State Governor Barr. Simon Bako Lalong to the Accountant-General, the state commenced the implementation of Treasury Single Account (TSA) with effect from 1st January, 2016. The TSA account is domiciled at the state bank (UBA) and serves as the common bank account of the state, while all participating MDAs had their accounts rationalized and regulated for receipts and payments using the FIMIS e-payment functionality. This had greatly reduced the ways and manner MDAs abandon funds in various banks a practice that mounted pressure on the state despite the dwindling revenue cannot be overemphasised.

As a result of the full implementation of the TSA, the Accountant-General had early this year, directed banks to close all accounts belonging to MDAs as mandated under the revenue Electronic-Collection (e-collection) Scheme.

This scheme had explained that the Plateau State Government's independent revenue e-collection initiative will automate revenue collections of MDAs directly into the State Government's Consolidated Revenue Fund (CRF) account at the IRS through the REMITA e-collection platform and other electronic collection channels.

## 1.1 INTRODUCTION TO STANDARD NATIONAL CHART OF ACCOUNTS AND INTERNATIONAL PUBLIC SECTOR ACCOUNTING STANDARDS (IPSAS)

### 1.1.1 INTRODUCTION TO STANDARDIZE NATIONAL CHART OF ACCOUNTS (NCOA)

No civilized society can function effectively without an effective government. All countries use government as a mechanism to provide services that benefit all citizens: police, judicial services, national defense, and municipal services, market, e.t.c.. Government also serves as a means of making some of the most important collective decisions: nature of the health system, education system, water and sewage system, roads and highways system. Given this pervasive nature of government, its performance has a direct bearing on the welfare of its citizens.

Enhanced government effectiveness not only affects the welfare of citizens in the short run but also in the long - run. In the increasingly globalized world, government effectiveness is one of the key determinants of a country's competitive advantage. Experts agree that in the long run, race among nations will be won or lost not only the basis of comparative advantage arising from resource endowment and production, but by the competitive advantage created by effective governments.

The recent financial crisis revealed substantial shortcomings in financial reporting practices in the public sector underscoring the importance of comprehensive, reliable, and timely financial reporting by governments. There is currently, an urgent need to improve governments understanding of their fiscal position and prospects, and to provide legislators, markets, and citizens with the information they need to make efficient financial decisions and to hold governments accountable for their performance. Establishing and disseminating highly quality international accounting standards for the public sector are critical to bringing about this change towards more fiscal transparency.

From the impetus above, the Federal Executive Council (FEC) at its meeting on 28<sup>th</sup> July, 2010 approved that Nigeria should adopt the provisions of the International Financial Reporting Standards (IFRS) and International Public Sector Accounting Standard (IPSAS) for the Private and Public Sectors respectively.

Consequently, the Federation Accounts Allocation Committee (FAAC) at its meeting held on 13<sup>th</sup> June, 2011 set up a Sub - Committee to Provide a Roadmap for the implementation of IPSAS in the three tiers of government in Nigeria. The Sub - Committee in its desire that the three tiers of Government in Nigeria, i.e. Federal, States and Local Government Councils (LGC) adopts the provisions of IPSAS has commenced the process to harmonize the financial operations. These operations include the use of Standardized National Chart of Account (NCoA) that is IPSAS compliant. The Roadmap to the Adoption of IPSAS is phased as follows:

- a) Full Adoption of Cash IPSAS 2013 to 2014.
- b) Adoption of Accrual IPSAS with effect from 2015 to 2016

In the light of the above, the FAAC Sub - Committee has developed a comprehensive Standardized National Chart of Account (NCoA) to be used by the three tiers of government.

The Nigeria National Chart of Account (NCOA) is described below(1.1.1.1 to 3):

**1.1.1.1 STANDARD NATIONAL CHART OF ACCOUNTS (NCOA) BY SEGMENT**

## 1.2 FEATURES OF THE NATIONAL CHART OF ACCOUNT

- i. It is designed from the COA used by the federal Government presently;
- ii. The NCOA is designed to be in line with the provision of Government Financial Statistics (GFS) of International Monetary Fund (IMF);
- iii. The CoA is to be used for IPSAS Cash Basis of Accounting and also IPSAS Accrual Basis of Accounting;
- iv. It is Expandable and Flexible;
- v. It is to be used in Budgeting and Accounting;

## 1.3 BUDGET CLASSIFICATION SYSTEM AND CHART OF ACCOUNT (BC & CoA)

The Chart of Account (CoA) is a term commonly used to describe the classification framework for recording and reporting transactions and other flows affecting an entity's financial position. It is a key component for ensuring that budget data is captured in the required degree of detail, that the source and reason for every transaction may be identified, and that budget information may be viewed in the appropriate context. The CoA also correlates the budget data with actual by providing a mapping to the budget classification structure.

In principle, the CoA embodies all classifications of relationships between accounting records. The term is most commonly applied to commercial enterprises and is linked fundamentally to accrual definitions of transactions and balance sheet concepts. It is also often applied to government accounts and used interchangeably with the term budget (or accounts) classification system.

A complete budget or accounts classification system would include the following sub - classification structure which permits multiple views of the Budget:

- i. Administrative Classification - depicts the organizations receiving budgetary resources. The classification shows the budgetary institutions and the budgetary allocations. It also shows the Organizational hierarchy and thereby permits both planning for and tracking of budgetary resources usage along the lines of Ministry, Division, Department and Branch.
- ii. Economic Classification - corresponds to the CoA structure of natural accounts and from the point of view of budgetary control, has three main components: Revenue, Expenses, and Non - Financial assets transactions. The expenditure classification system has several sub components that allow expenditure analysis by function, institution, program and economic classification levels. The classification of expenditure by economic category - wages and salary, goods and services, investment spending, etc. - is essential for detail analysis of the budget.
- iii. Functional Classification permit trend in government outlay on particular function to be examined over time and thus aid in forecasting future expenditure or in evaluating the success of program within a function. The functional classification of revenues and expenditures provides information on the purpose for which revenues were collected and expenses incurred. In addition, economic and functional categories can be cross - classified to show the types of transactions engaged in to carry out a particular function.
- iv. Program Classification shows the planned budgetary allocation to specific programs (such as poverty reduction) that may be implemented by a variety of organizational units and may involve several functional categories. Projects are elements of a broader program classification and may be associated with external aid (identified with particular government/ donor fund).
- v. Fund Classification - denotes the type of funds under which public funds are authorized (e.g. general or revenue fund, development fund, road fund etc).

- vi. Location Classification - enables the analysis of the impact of the government expenditure in Geo Political Zones, States, Local Government and Wards in Nigeria. Poverty means many things to many people, that the concept now simply connotes lack of something. It could be lack of intangible things like health, education or tangible things like money, food and infrastructure. The location classification enables the analysis of the impact of government expenditure in reducing both intangible and tangible poverty.

#### 1.4 COMPREHENSIVENESS OF INFORMATION INCLUDED IN BUDGET DOCUMENTATION

In line with international Public Sector Accounting Standards, the Annual Budget Documentation (the annual budget and budget supporting documents) as submitted to the legislature for scrutiny and approval, should allow a complete picture of the State Government fiscal forecast, budget proposals and out - turn of previous years. In addition to the detailed information on revenues and expenditures, and in order to be considered complete, the annual budget documentation should include information on the following elements:

1. Macro - economic assumption, including at least estimates of aggregates growth, inflation and exchange rate;
2. Fiscal deficit, defined according to the Government Finances Statistics (GFS) or other internationally recognized standards;
3. Deficit financing, describing anticipated composition;
4. Debt Stock, including details at least for the beginning of the current year;
5. Financial Assets, including details at least for the beginning of the current year;
6. Prior year's outturn, presented in the same format at the budget proposal;
7. Current year's budget (either the revised budget or the estimated outturn), presented in the same format as the budget proposal;
8. Summarize budget data for both revenue and expenditure according the main heads of the classification approved in the National Chart of Accounts and the additional segments, including data for the current and previous year;
9. Explanation of budget implications of new policy initiatives, with estimates of the budgetary impact of all major revenue policy changes and/or major changes to expenditure program.

## 2.0 ADMINISTRATIVE SEGMENT

### 2.1 ADMINISTRATIVE SEGMENT BY PLATEAU STATE CLASSIFICATION CODES

The Plateau State Administrative classification codes depict information on the state Public Sector Organizations that incur expenditure and, or receive revenue on behalf of the government of the state. These entities run the day-to-day activities of government.

This Administrative Segment consists of five Sectors and is allocated 12-digit codes according to the National Chart of Accounts. E.g. Ministry of Education=050000000000.

### 2.2 ADMINISTRATIVE SEGMENT BY ADMINISTRATIVE SECTORS

The Administrative Segment has basically five sectors which are divided according to the objectives and/or functions/roles that each MDA and its unit play. Those with similar objectives are grouped together away from those that differ.

These sectors include:

- i. Administrative Sector; these are MDAs whose roles are basically administrative in nature. E.g. Office of the Executive Governor
- ii. Economic sector; these are income generators. E. G. Ministry of works
- iii. Judiciary Sector; these are MDA that deal with legal or judiciary matters
- iv. Regional Sector; MDAs created due to geographical matters fall into this category. E. G. Ministry for Niger Delta
- v. Social Sector; MDAs that offer social services are categorised here.

### 2.3 ADMINISTRATIVE SEGMENT BY ADMINISTRATIVE BLOCKS

The Administrative Segment is divided into four Blocks and a Departmental Tray. These blocks and Tray are:

- a. Main Sector(2-digit code)
- b. Org Code/Parent Organization(2-digit code)
- c. Sub Org/Brother or Sister Organization (3-digit code)
- d. Sub-Sub/Baby Organization (3-digit code)
- e. Departmental Block (2-digit code)

### 3.8.2 ECONOMIC SEGMENT BY LIABILITY ACCOUNT CODES

ECONOMIC CODE	DESCRIPTION
41010000	Deposits
41030100	Internal Loans Balance
44010100	Foreign Loans Control A/C
46010100	Consolidated Revenue Funds
46010111	Current Year Surplus/(Deficit)
46010200	Capital Development Fund
46010201	Current Year Surplus/(Deficit)

#### 4.0 FUNCTIONAL SEGMENT

The functional classification identifies the purpose of government expenditure. The primary objective of the classification is to provide a strategic overview of the allocation of government resources among different Functions and Sub-Functions. The functional classification indicates the main areas of government's involvement in the regulation and direct provision of services in different functions.

This classification groups the expenditure according to government's function rather than its Organization units or its Input/Economic classification. Examples of functional classification include Health Services, Public Order and safety, Housing and Community Amenities, and alike. Some functions may be implemented by one, two or more spending agencies for political, administrative, and technical reasons.

In 1986, the International Monetary Funds (IMF) in its Government Finance Statistics Manual(1986 GFSM) provided a Standard Functional Classification for organizing government expenditure.

The model was based on the United Nation's 1984 Publication on the Classification of Functions of Government (COFOG). IN 1999, the United Nations's Statistical Division revised this publication.

Accordingly, the IMF'S 2001 GFSM provided model for functional classification, which was based on the revised COFOG.

The 2001 GFSM suggest 10 main Function, each divided into a number of functions, and some, but not all functions are further divided into a few sub functions. This standard classification provides a comprehensive list of government operations worldwide from which any country may choose as it finds suitable to its tasks and functions. Depending on the size and nature of government operations of each country, the classification at Function or Sub Function can provide a suitable Classification for any expenditure projection at the initial stage of budget preparation. The standard National Chart of Accounts adopts the 10 Main Functions and 69 Sub Functions provided in the 2001 GFSM as indicated in the table below.

#### 4.1 FUNCTIONAL SEGMENT BY MAIN GROUPS

FUNCTIONAL CODE	FUNCTIONAL DESCRIPTIONS
701	GENERAL PUBLIC SERVICES
702	DEFENSE
703	PUBLIC ORDER AND SAFETY
704	ECONOMIC AFFAIRS
705	ENVIRONMENTAL PROTECTION
706	HOUSING AND COMMUNITY AMENITIES
707	HEALTH
708	RECREATION, CULTURE AND RELIGION
709	EDUCATION
710	SOCIAL PROTECTION

From the above, report on Main Functions and Sub-Functions can be generated for both recurrent and capital expenditure, with the aid of a good computer system.

#### 4.2 FUNCTIONAL SEGMENT BY FUNCTIONS

The 10 Main Functions are further divided into 69 sub functions which are generally referred to as Groups. The number of sub functions or Groups under the main Functions is indicated below:

FUNCTIONAL CODE	FUNCTIONAL DESCRIPTIONS	No of sub Functions or Groups
701	GENERAL PUBLIC SERVICES	8
702	DEFENSE	5
703	PUBLIC ORDER AND SAFETY	6
704	ECONOMIC AFFAIRS	9
705	ENVIRONMENTAL PROTECTION	6
706	HOUSING AND COMMUNITY AMENITIES	6
707	HEALTH	6
708	RECREATION, CULTURE AND RELIGION	6
709	EDUCATION	8
710	SOCIAL PROTECTION	9
	<b>TOTAL SUB FUNCTIONAL GROUPS</b>	<b>69</b>

#### 4.3 FUNCTIONAL SEGMENT BY SUB FUNCTIONS

FUNCTIONAL CODE	FUNCTIONAL DESCRIPTIONS

7102	OLD AGE
7103	SURVIVORS
7104	FAMILY AND CHILDREN
7105	UNEMPLOYMENT
7106	HOUSING
7107	SOCIAL EXCLUSION N.E.C
7108	R&D SOCIAL PROTECTION
7109	SOCIAL PROTECTION N.E.C.
	TOTAL SUB FUNCTION= 9
	<b>GRAND TOTAL= 69 SUB FUNCTIONS</b>

Sub functions are further sub divided into lower levels called Classes. Budgeting and Accounting would normally occur at classes level being the lowest level at which transactions would be mapped either from Economic and/ or Program/ Project dimensions.

Information on Functional Classification of Government Expenditure in Nigeria normally generated by State and Local Government for the Central Bank of Nigeria and National Bureau of Statistics for the purpose of Fiscal survey would normally be generated based on information at the classes' level which would be aggregated at sub function level for initial budget projections.

For example Sub Function 7011 - Executive and Legislative Organs, Financial and Fiscal Affairs and External Affairs are further sub divided in three classes namely:

- 70111 - Executive and Legislative Organs
- 70112 - Financial and Fiscal Affairs
- 70113 - External Affairs

4.4 FUNCTIONAL SEGMENT BY CLASSES

## 5.0 PROGRAMME SEGMENT

### 5.1 PROGRAMME SEGMENT: INTRODUCTION

A perennial question of annual budget from Ministries, Legislature, and General Public, is "What are we getting for the Money voted each year on different government services? Under the Traditional line items budgeting, funds are allocated to agencies with no sense what the money actually achieves.

Furthermore, under the line item budgeting, budget officers know what inputs are being purchased, there is no clear indication of what activities, purpose, or objectives-or ultimately outputs and outcomes-are being purchased, and to show how Government policies translate into spending is to adopt programme classification.

A programme classification is often thought of as a first step in introducing performance orientation into the Budgeting process. The programme or operational classification helps to improve the quality of budgeting for the purpose of analyzing, accepting, rejecting, removing or modifying an on-going or new recurrent activities or investment project in the context of a programme's objective. This cannot be achieved by a broad functional classification of expenditure or any organizational, or a detailed economic classification.

Normally, in all countries, investment or development budget are classified on a project basis, which is a suitable means of introducing a programme structure. But, in practice, because recurrent budgets are normally based on only organizational and economic classification, the investment projects remain unrelated to the organization's recurrent operations in a programme structure.

No international standard for programme classification exist, and the classification used within this context is also is used in widely deviating ways across different countries. However, programme classification can be used to show objectives of Government spending and also contributes to improved transparency and accountability as it links inputs to objectives. A capital budget based on Programmes represents and presents the most advanced results in terms of compliance with international standards and best practices.

## 5.2 PROGRAMME SEGMENT BY POLICY

A policy is typically described as a deliberate plan of action to guide decisions and achieve rational outcomes. Policy differ from Rules or Law. While law can compel or prohibit behaviours (e.g a law requiring the payment of taxes on income), policy merely guides actions towards those that are most likely to achieve a desired outcome.

Examples are energy policy, economic policy, education policy, etc.

POLICY CODE	POLICY DESCRIPTION
01	CRITICAL INFRASTRUCTURE
02	THE NIGER DELTA
03	FOOD SECURITY
04	HUMAN CAPITAL DEVELOPMENT
05	LAND TENURE CHANGES AND OWNERSHIP
06	NATIONAL SECURITY AND INTELLIGENCE
07	WEALTH CREATION

A programme classification involves the following:-

- i. Identification and examination of goals and objectives in each major area of government activity
- ii. Analysis of output of a given programme in terms of objectives.
- iii. The measurement of total programme cost, not just for current year but several years ahead;
- iv. The formulation of multi- year expenditure programme

Under the standard national chart of account, twenty one (21) programmes have been adopted for implementation by the three tiers of government in Nigeria. Further Programmes may also be developed to address specific policy objectives of the government at any time. The programme element has been allocated (2) digits coding structure, suggesting that up to 99 programmes may be developed by any tier of government in Nigeria.

PROGRAMME CODE	PROGRAMME
01	Economic Empowerment Through Agriculture
02	Societal Re- Orientation
03	Poverty Alleviation
04	Improvement to Human Health
05	Enhancing skills and knowledge
06	Housing and urban Development
07	Gender
08	Youth
09	Environmental Improvement
10	Water Resources and Rural Development
11	Information Communication and Technology
12	Growing the private Sector
13	Reform of Government and Governance
14	Power
15	Rail
16	Water ways
17	Road
18	Air ways
19	Sea Ports
20	Shipping
21	Oil and Gas Infrastructure

### 5.3 PROGRAMME SEGMENT BY PROJECT

Programmes are further broken into projects. Budgeting and Accounting are carried out along project line. Within a programme there are up to 999,999 projects that can be designed during budget preparation and accounted for during execution by Programme Managers. Based on the Standard National Chart of Accounts 6 digits have been allocated to the project element.

The budget must be controlled by the Economic/Programme/Project classification of each MDA. That is, on every transaction, the full Organizational, Economic, Programme and Project Classification must be given. To fit in within the frame work of the programme that it supports and align with that particular programme's objective as every programme must address at least an objective specified for that particular programme. However this classification must be done very carefully.

Call circulars should specify the MDAs responsible for implementing each programme. The Project description should state clearly the location and nature of the Project for ease of monitoring and evaluation.

#### 5.4 PROGRAMME SEGMENT BY OBJECTIVE

An objective may be defined as a specific statement of what a given policy, programme or sub- programme is intended to achieve within a given period. Objectives represent the specific results desired within a fixed period of time. They should specify what is to be accomplished, for whom, and by what date.

Each of the 21 Programmes adopted for implementation under the standard National Chart of Accounts have their related specific objectives or targets shown against it as indicated in table below:

PROGRAMME CODE	PROGRAMME AND OBJECTIVES DESCRIPTION
<b>0100</b>	<b>ECONOMIC EMPOWERMENT THROUGH AGRICULTURE</b>
0101	Increase food production by 80% by 2020.
0102	Increase the volume of credit Facility to farmers by 50% by 2020
0103	Increase the number of farmers who have access to credit by 2020
0104	Increase the rate of transfer of technology by year 2020
0105	Reduce wastage by year 2020
0106	Increase agricultural productivity by 50% by year 2020
0107	Increase the disposable income of farmers by year 2020
0108	Increase livestock production by year 2020
0109	Increase export of agricultural products by 40% by 2020
0110	Increase public private partnership- PPP involvement in Agriculture by 60% by 2020
0111	Increase the number of Commercial farmers by 50% by 2020
0112	Increase the number of Bee farmers by 100% by the year 2020
0113	Raise Bee Production by 100% by year 2020
0114	Create 2000 new jobs through Bee farming by year 2020
0115	Increase Agricultural Inputs such as fertilizer seeds and tractors to farmers
<b>0200</b>	<b>SOCIETAL RE- ORIENTATION</b>
0201	Achieve 40% improvement in general behaviour by year 2020
0202	Minimize incidence of corruption in public service by 2020
0203	Minimize incidence of religious intolerance by year 2020
0204	Improve Citizen's Literacy Rate from 35% to 45% by 2020
0205	Minimize incidence of nepotism and favouritism by year 2020
0206	Achieve 75% improvement in behaviour of road users by 2020
0207	Reduce by half the number of accident and casualty
0208	Become credible in words and deeds in public service by 2020
<b>0300</b>	<b>POVERTY ALLEVIATION</b>
0301	Reduce by 50% the proportion of people who suffer hunger in 2020
0302	Increase per capital income of Plateau state Residents by 20% by 2020
0303	Create an additional 200,000 jobs by year 2020
0304	Improve Literacy rates among the poor by 50% by 2020
0305	Increase number of registered cooperative societies by 25%
0306	Minimize discrimination of the poor by 2020
0307	Improve access to Water, Education, Health, And Sanitation services
0308	Increase number of registered neighbourhood watch group by 50% by 2020.

<b>04</b>	<b>IMPROVEMENT TO HUMAN HEALTH</b>
0401	Halt by 2020 and begin Reversal of HIV/AIDS spread
0402	Halt by 2020 and begin Reversal of Malaria/TB and other diseases
0403	Increase cooperation with pharmaceutical companies that provide essential drugs by 40% by 2020
0404	Reduce maternal mortality rate by 80% by 2020
0405	Reduce infant mortality rate by 80% by 2020
0406	Provide access to basic health care services for all
0407	Provide skilled assistance at birth to at least 40% of women
0408	Achieve 35:65 cost sharing between people and government for health
0409	Eliminate the out of stock syndrome in all public hospitals
0410	Improve the response time to emergency call/ treatment by 70% by 2020
0411	At least 90% of people know how to protect themselves against HIV/AIDS
0412	Achieve at least 70% increase in VCT health facilities
0413	Achieve at least 60% reduction in STI among people at risk
0414	At least 90% of primary health workers know how to treat STDs
0415	Decreasing HIV prevalence among ANC attendants by 2020
0416	At least 70% of PLWHA will have access to ART in year 2020
0417	Reduce the incidence of non communicable diseases by 40% by 2020
<b>05</b>	<b>ENHANCING SKILLS AND KNOWLEDGE</b>
0501	Ensure that by 2020 every child of school age completes primary education
0502	Increase public awareness on importance of education by 2020
0503	Increase community support and participation in education
0504	Yearly Renovation of 100 primary schools by 2020
0505	Yearly Provision of teaching materials to 200 post primary schools
0506	Yearly Provision of teaching materials to 200 primary schools
0507	Yearly Provision of teaching materials to all tertiary institution
0508	Provision of furniture to all primary and secondary schools
0509	Provision of ICT centres in all post primary schools
0510	Improvement of teachers competence and skills
0511	Yearly training/ retraining of all post primary school teachers
0512	Yearly training/ retraining of all primary school teachers
0513	Inculcation of reading habit in our students/pupils
0514	Yearly establishment of 50 libraries in post primary schools
0515	Improve teaching post/strength(mass production of teachers)
0516	Yearly Renovation of 100 secondary schools by 2020
0517	Set up student industrial work experience scheme and rural posting
0518	Ensure 1:30 Teacher-Pupil/Student Ratio
0519	Yearly renovation of at least 1 tertiary institutions by 2020
0520	Yearly renovation of at least 1 special education centre by 2020
<b>06</b>	<b>HOUSING AND URBAN DEVELOPMENT</b>
0601	Improve life of slum dwellers by 2020
0602	Increase housing delivery by 90% through PPP BY 2020
0603	Impart building skills to at least 100 volunteers per 2020
0604	Improve rural housing by completing housing projects per ward

1315	Publish accounts of government stewardship within 3months
1316	Cut capital cost by at least 35% by employing value engineering
1317	Collect all outstanding payment from leasers
1318	Commit to a policy program of privatization and commercialization
1319	Enthroned the rule of law in all operations of Government
1320	Promotion of alternative dispute resolution
1321	Ensure timely prosecution of cases
<b>14</b>	<b>POWER</b>
1401	Rehabilitation of all power generation and distribution assets
1402	Completion of all rural electrification project
1403	Develop alternative source of energy such as wind, solar, etc
1404	Achieve installation of 300 double arm and 3000 single arm street light
<b>15</b>	<b>RAIL</b>
1501	Rehabilitation of the existing narrow gauge rail
1502	Concessioning rail lines within the state through PPP
1503	Construction of mass transit rail lines
<b>16</b>	<b>WATER WAYS</b>
1601	Increase the navigable routs on the inland waterways
1602	Increase inland waterways traffic and passengers substantial
1603	Dredging and reclamation of river niger
1604	Rehabilitation and construction of key river ports jetties
<b>17</b>	
1701	Recovery of not less than 30% existing state roads by 2020
1702	Rehabilitation and construction of the major trunk roads
1703	Concession of major and viable routes through PPP
1704	Achieve 200 km of urban Roads and 350 km of Rural roads by 2020
<b>18</b>	<b>AIRWAYS</b>
1801	Upgrade and expand the airport
1802	Improve air safety to ICAO standards
1803	Improve safety of airport
<b>21</b>	<b>OIL AND GAS INFRASTRUCTURE</b>
2101	Gas infrastructure development and expansion within the state
2102	Gas infrastructure network within the three senatorial zone
2103	Increase transportation of gas, crude oil and PMS via pipe line

## 5.5 PROGRAMME SEGMENT BY ACTIVITY

An activity to is a specific plan of action that is designed to achieve a target or stated objective.

when the United Nations met in September 2000 to set goals for New Millennium, the goal for social and economic development were defined by specific, quantifiable, time- bound target- reducing poverty by half; ensuring that all children complete primary school, achieving gender equality in education, reducing child mortality rates by two- thirds, cutting maternal mortality rates by three- quarters, and increasing access to safe water and sanitation, all by 2015.

These are ambitious goals. They are intended to draw public attention to the need for faster progress and firmer commitment to achieve results. Reliable statistics are needed to monitor progress towards the Millennium Development Goals which represent the global action plan to achieve all its objectives or targets.

The Nigerian vision 2020 also set three clear action plans designed to ensure that the nation aspirations are attained. These national aspirations are :

- (a) Polity- Peaceful, harmonious and stable democracy
- (b) Macro- Economic- A sound, stable and globally competitive economy with a GDP of not less than \$900 billion and a per capital income of not less than \$4000 per annum.
- (c) Agriculture- A modern technologically enabled agricultural sector that fully exploits the vast agricultural resources of the country, ensures national food security and contributes to foreign exchange earnings
- (d) Health: A health sector that supports and sustains life expectancy of not less than 70 years and reduces to the barest minimum the burden of infectious and other debilitating diseases
- (e) Manufacturing: A vibrant and globally competitive manufacturing sector that contributes significantly to GDP with a manufacturing value added of not less than 40%.
- (f) Infrastructure: Adequate infrastructure services that support the full mobilization of all economic sectors.
- (g) Education: Modern and vibrant education system which provides the opportunity for maximum potential, adequate and competent manpower.

The plan of action provided in vision 20:2020 for the attainment of the above national aspiration are:

- (i) Growth aimed at improvement in the quality of life of Nigerians
- (ii) People as the fundamental reason for growth
- (iii) Achieving inclusiveness, equity and balanced development.

The global and national action plan designed to achieve any stated programme objective or targets.

Thus every capital project must be mapped to a programme, related programme objective or target and specified by any stated plan of action.

ACTIVITY CODE	SPECIFIC PLAN OF ACTION OR ACTIVITY DESCRIPTION
01	Eradicate extreme poverty and hunger
02	Achieve universal primary education
03	Promote gender equality and empower women
04	Reduce child mortality
05	Improve Material Health
06	Combat HIV and Aids, Malaria and other Diseases
07	Ensure environmental sustainability
08	Develop a Global Partnership for Development
09	Growth aimed at improvement in the quality of life of Nigerians
10	People as the fundamental reason for growth
11	Achieve inclusiveness, equity and balanced development.

## 6.0 FUND SEGMENT

Sources of Funds refer to the various means of funding government activities. Payment in respect of salaries and overheads for instance may be funded from an MDA's regular budget/main envelop or through Aid and Grants from local or foreign bodies. Other possible sources of funds are capital Development Fund, Com Service-wide Vote, Capital supplementation etc. The Source of Funds code is used to uniquely identify the particular means of funding each transaction.

FUND CODES	FUND SOURCES
01000	Federation Account
02000	Consolidated Revenue Fund
03000	Capital Development Fund
08101	Multilateral Aids/Grant - African Development Bank
08102	Multilateral Aids/Grant - Arab Bank for Economic Development
08103	Multilateral Aids/Grant - Arab loan Fund for African League
08104	Multilateral Aids/Grant - ECOWAS Fund
08105	Multilateral Aids/Grant - European Development Fund
08106	Multilateral Aids/Grant - European Union
08107	Multilateral Aids/Grant - European Investment Bank
08108	Multilateral Aids/Grant - IDA African Facility
08109	Multilateral Aids/Grant - IBRD
08110	Multilateral Aids/Grant - IDA
08111	Multilateral Aids/Grant - IFC
08112	Multilateral Aids/Grant - International Fund for Agric Dev.
08113	Multilateral Aids/Grant - International Monetary Fund (IMF)
08114	Multilateral Aids/Grant - Nigerian Trust Fund
08115	Multilateral Aids/Grant - Nordic Development Fund
08116	Multilateral Aids/Grant - OPEC
08117	Multilateral Aids/Grant - UNDP
08118	Multilateral Aids/Grant - UNICEF
08119	Multilateral Aids/Grant - UNFPA
08120	Multilateral Aids/Grant - World Bank Trust Fund
08121	Multilateral Aids/Grant - World Food Programme
08122	Multilateral Aids/Grant - United Nations Capital Development Fund
08123	Multilateral Aids/Grant - Global 2000
08124	Multilateral Aids/Grant - UNIDO
08125	Multilateral Aids/Grants - Multi-Donor Budget Support
08200	BILATERAL AID
08201	Bilateral Aids and Grants - SIDA
08202	Bilateral Aids and Grants - USAID
08203	Bilateral Aids and Grants - DFID
08204	Bilateral Aids and Grants - CIDA
08205	Bilateral Aids and Grants - Saudi Fund for Development
<b>08300</b>	<b>LOCAL LOAN</b>
08301	Local Aids and Grants - Donation by Local NGOs
08302	Local Aids and Grants - Donation by State Governments
08303	Local Aids and Grants - Donation by Local Governments
08304	Local Aids and Grants - Donation by FG Owed Companies

	Individuals and Grants - Donation by Private Sector
08306	Local Aids and Grants - Donation by Individuals
09100	MULTILATERAL LOAN
09101	Multilateral Loans and Debts - African Development Bank
09200	BILATERAL LOAN
09201	Bilateral Loans/Debts - African Development Bank
09202	Bilateral Loans/Debts - African Development Fund
09203	Bilateral Loans/Debts - Arab Bank for Economic Development
09204	Bilateral Loans/Debts - Arab loan Fund for African League
09205	Bilateral Loans/Debts - ECOWAS Fund
09206	Bilateral Loans/Debts - European Development Fund
09207	Bilateral Loans/Debts - European Union
09208	Bilateral Loans/Debts - European Investment Bank
09209	Bilateral Loans/Debts - IDA African Facility
09210	Bilateral Loans/Debts – IBRD
09211	Bilateral Loans/Debts - IDA
09212	Bilateral Loans/Debts - International Finance Corporation
09213	Bilateral Loans/Debts - International Fund for Agricultural Development
09214	Bilateral Loans/Debts - International Monetary Fund (IMF)
09215	Bilateral Loans/Debts - Nigerian Trust Fund
09216	Bilateral Loans/Debts - Nordic Development Fund
09217	Bilateral Loans/Debts – OPEC
09218	Bilateral Loans/Debts – UNDP
09219	Bilateral Loans/Debts – UNICEF
09220	Bilateral Loans/Debts – UNFPA
09221	Bilateral Loans/Debts - World Bank Trust Fund
09222	Bilateral Loans/Debts - World Food Programme
09223	Bilateral Loans/Debts - United Nations Capital Development Fund
09224	Bilateral Loans/Debts - Global 2000
09225	Bilateral Loans/Debts – UNIDO
09226	Bilateral Loans/Debts - Multi-Donor Budget Support

## 7.0 GEOGRAPHIC SEGMENT

Geographic codes (Geo Codes, for short) are used to identify the geographical location of an MDA or a project so that an analysis of government budget and expenditure along the various zones, states and local government areas in the country can be done. Geo codes are made up of parts namely: Zones (representing the 6 geo-political zones of the country), states (representing the 36 states and the Federal Capital Territory), senatorial zones (representing the 109 senatorial zones) and Local Government Areas (representing the 774 Local Government Areas).

### 7.1 GEOGRAPHIC SEGMENT BY NATIONAL GEOGRAPHIC REGIONS + FCT AND 36 STATES

## 8.0 SCHEME OF SERVICE SEGMENT

### 8.1 INTRODUCTION

The scheme of service is a career guide in the civil service of any government in Nigeria. Therefore every employee of Plateau State Government is expected to study and digest the provisions particularly as they affect his/her Cadre and to know how to improve himself/herself in order to raise to the peak of his/her chosen career. The National Standard Chart of Accounts requires total number of personnel employed by government to be disclosed in financial statements and budget report. For this purpose, the chart of Accounts for the scheme of service need to be developed in order to accumulate the relevant costs against each cadre and other relevant categories. For the purpose of developing its Chart of Accounts, the Scheme of Service is divided into three parts as follows:-(a)Admin;(b)Cadre Type and (c) cadre.

With these grouping, Human Resources Software and payroll Software can be integrated to the Accounting and Budgeting Software to generate staff list by Cadre and other Establishment reports required for multi-year manpower planning and recruitment purposes. See Sample Employee Listing report below:

### 8.2 SHEME OF SERVICE ADMINISTRATION CODE LISTING

ADMIN CODE	DESCRIPTION

## 9.0 SALARY GROUP SEGMENT

### 9.1 INTRODUCTION

The wage bill of Plateau State constitutes huge percentage cost implication in government expenditure. There are also costs incurred in the preparation of workers remuneration apart from the large emolument paid workers. Furthermore, most times funds are lost and wastages incurred due to the susceptibility of the pay-rolling process to weak controls and abuse.

There exist many approved salary tables and structures within every cadre of the Plateau State Civil and Public Service. Employees' cadre are matched with their salary groups when they meet certain criteria at the point of their appointment and as a result of progression. However, for effectiveness of the payroll and best practice, the Human Resource data is integrated with the payroll system where Chart of Accounts for various Salary Groups will be developed and mapped within/between these segments.

### 9.2 SAMPLE OF LEGENDARY SALARY STRUCTURES IN PLATEAU STATE

NO	LEGENDARY SALARY STRUCTURES	
i	HAPSS	HARMONIZED PUBLIC SALARY STRUCTURE
ii	HATISS	HARMONIZED TERTIARY INSTITUTION SALARY STRUCTURE
iii	HAPSS (RELATIVITY)	HARMONIZED PUBLIC SALARY STRUCTURE (RELATIVITY)
iv	CONSS	CONSOLIDATED SALARY STRUCTURE

### 9.3 CURRENT SALARY STRUCTURES

The key to effective payroll is to establish a link between the Human Resources Management Information System (HRMIS) and the Payroll. This link will enable any change made in the HR and payroll databases to trigger Audit trails, facilitate comprehensive personnel Audit, control and eliminate the incidence of Ghost Worker syndrome.

The Salary Group Segment is divided in to 4 main parts

- a. Salary Group Code (2-digits)
- b. Salary Sub-Group code (2-digits)
- c. Salary Grade Code (2-digits)
- d. Salary Step Code (2-digits)
