The South South Summit

The six Governors of Nigeria's Southernmost States (Bayelsa, Rivers, Akwa Ibom, Cross River, Edo and Delta) give you the good wishes of the people of the South-South of Nigeria, as we seek collaboration to transform the region away from the current challenges to a zone of prosperity. This should remove threats to the energy security of the world, much impacted by the oil in the Gulf of Guinea and the environmental challenges from gas flaring in the region which produces more than 80% of the revenues of Nigeria.

Consequently, the Governors of the region are collaborating further by organizing a South-South Economic Summit with the theme "Positioning the South-South for Global Competitiveness". This is expected to drive growth in the economies of the 6 states in the region and perhaps facilitate a turnaround nationally that will help Nigeria attain and surpass the Millennium Development Goals (MDGS).
