GANTT CHART FOR MONITORING THE IMPLEMENTATION OF THE 2012 POLIO EMERGENY PLAN BY STATES.

General Objectives: To interrupt all WPV transmission by end of 2012. 2. To reduce cVDPV transmission by 90% compared to 2011 levels by end 2012

DELIVERABLES			TIME-LINES					
	Responsibility	Implementation Status	Identified Problems & key suggestions	Quarter 1	Quarter 2	Quarter 3	Quarte 4	
Thematic Area 1: Identification and deployment of additional hun	nan resourc	es to highest ris	k areas of the cour	ntry				
Objective: Improve SIA and RI coverage quality in high-risk LGAs and designated								
Key Performance Indicators: Number of additional vaccination teams deployed	to high- risk ar	nd hard to reach LG	As				100	
Strategies: Increasing the number of vaccination teams operating in high-risk ar Scaling-up of community based social mobilization in high risk states	nd designated '	hard to reach' area	s. 2 Increasing the dep	loyment of pa	rtner support	to high-risk	areas 3.

Thematic Area 5: Accelerating RI service delivery	У			
Objectives: ≥80% high-risk LGAs meeting 1'2'3' strategy exp	pectations 2. ≥50% increase in ro	utine immunization coverag	e in LGAs with confirmed cVDP	V transmission detected in the
previous 12 months 3. ≥50% reduction of unimmunized chi	ildren in LGAs with > 2500 unimn	nunized children		
Key Performance Indicators: 1. 80% of vulnerable LGAs to	achieve 95% OPV birth dose			
Strategies: Close monitoring of full implementation of 1'2'	'3' strategy in all high-risk LGAs			1000
